The purpose of the Star Grant is to fuel grade-wide, department-wide and school-wide initiatives that have a broad impact on the students. Star grants exceed $1,000 and have been as high as $20,000+. Examples of past year’s grants that provide innovative additions to the curriculum are:

- “Newsela Pro”, a district wide reading program to help assess readers and provide commensurate articles based on these assessments.
- “Digital Fabrication”, a programing system to assist students in creating physical items.
- “Alpha Better Desks”, stand-up desks to allow students options for better learning.
- “Digital Microscopes”, technology to help our science department provide superior images of microscopic organisms through digital media.

We welcome your grant applications, which will be cautiously reviewed by our board members to determine their significance and impact on our students. **We ask that you take the time to complete the application fully, any incomplete applications will not be reviewed.** A teacher who wishes to obtain funding for a project in the classroom should complete this grant application and include a brief description of the idea and its benefits, as well as, the approximate number students or classes who can participate and benefit from this idea/program. **Please note:** If this is a technology grant it will require approval from the technology department supervisor a copy of the actual budgeted price from the technology department for any items to be purchased with these grant monies.

After gaining approval from the school principal or department supervisor, email this signed and completed application with any additional information to: mgrassi.hfee@gmail.com or mail to: address above. The deadline for the Star-Grant submission is **February 15, 2017**.
