Message from the Principal

Dear Students and Parents:

I am proud to present the Curriculum Guide for the 2015-2016 school year. In this document you will find important information that may help you plan the educational program, which will impact your future.

As you embark upon the course selection process, I would like to express the importance of thoughtful choices and careful planning. Please familiarize yourself with all the course offerings so that you can make knowledgeable and responsible decisions. Your course selections should be based upon graduation requirements, as well as future educational and career plans. At Huntington High School, we believe that parent involvement in the educational process is vital; therefore, we invite both students and parents alike to utilize the expertise of our Guidance Department.

Huntington High School not only offers all required courses to meet graduation requirements (refer to page 4), but also a large number of academic support, honors and advanced placement courses, as well as an extensive science research program. Additionally, your interests can be pursued through a varied selection of elective courses and a senior year internship program.

Please feel free to call or schedule an appointment with your guidance counselor so that he/she can assist you in selecting a rigorous academic program.

Sincerely,

Carmela Leonardi, Ph.D.
Principal
BOARD OF EDUCATION

Mrs. Emily Rogan, President
Mrs. Jennifer Hebert, Vice-President
Mr. Tom DiGiacomo, Trustee
Mr. William P. Dwyer, Trustee
Mrs. Bari Fehrs, Trustee
Mr. Xavier Palacios, Trustee

CENTRAL ADMINISTRATION

Mr. James W. Polansky
Superintendent of Schools

Mr. Sam Gergis
Assistant Superintendent for Business

Dr. Kenneth A. Card
Assistant Superintendent for Curriculum and Instruction

HUNTINGTON HIGH SCHOOL ADMINISTRATION

Dr. Carmela Leonardi - Principal -------------- 673-2003
Mr. Brenden Cusack - Assistant Principal-------- 673-2009

HUNTINGTON HIGH SCHOOL PARENT ORGANIZATIONS

PTSA: Parent Teacher Student Association: Works for the well being of our students and our school. PTSA affiliates with State and National PTA.

SEPTA: Special Education Parent Teacher Association

VARSITY CLUB AND BOOSTERS: Raises money to benefit student athletes.

OOM PAH: Raises money to benefit students in the music program.

NON-DISCRIMINATION POLICY
The Huntington Union Free School District, Huntington, New York, does not discriminate on the basis of color, creed, disability, marital status, national origin, race, religion, sex or sexual orientation in any of its educational programs or activities, or in its employment practices. Title IX, of the Education Amendments of 1972, Title VI of the “Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973 (as amended), the Americans with Disabilities Act (ADA) and the Age Discrimination Act prohibit discrimination on the basis of sex, race, color or national origin, disability and age respectively. This policy of nondiscrimination includes: recruitment and employment of employees, salaries, pay and other benefits, counseling service to students, student access to course offerings, educational programs and other activities.

Inquiries concerning the application of this policy on nondiscrimination, or complaints of discrimination under any of the above-referenced basis may be directed to the following individuals designated to coordinate the district’s efforts to comply with and carry out its responsibilities under Title IX, Section 504/ADA and the Age Discrimination Act:

Coordination of activities relating to compliance with the Title IX and Title VI are the responsibility of: Office of Human Resources, Huntington Intermediate Administration Building, 50 Tower Street, Huntington Station, New York 11746, (631) 673-2185.

Coordination of activities relating to compliance with Section 504, the ADA and the Age Discrimination Act is the responsibility of: Central Administration, Huntington School District, 50 Tower Street, Huntington Station, New York 11746, (631) 673-2036.

RELIGIOUS INSTRUCTION AND RELIGIOUS OBSERVANCE
A student will be excused from school for religious instruction and observance upon the written request of a parent or guardian of the student, however, these absences will be counted.

### REQUIRED EXAMS

- CC English Regents
- Global Studies Regents
- U.S. History Regents
- One CC Math Regents
- One Science Regents

Honors Distinction is available for the Regents and Advanced Regents Diploma, by obtaining an overall average of 90 and above on the designated Regents examinations (as identified). Students seeking an Advanced Regents Diploma will also have the option to earn an annotation on their diploma that denotes mastery in math and/or science.
GUIDANCE
Upon entry into the high school, students are assigned to a Guidance Counselor who will assist them throughout their high school years. Students and parents are encouraged to get to know their guidance counselor, since the partnership you establish will help ensure open lines of communication and success.

Counselors are here to answer questions and ease concerns about life and studies at Huntington High School, as well as to assist you in developing plans for the future. The guidance office is a rich source of information regarding career opportunities, visitations to colleges and vocational schools, scholarship and financial aid, test dates and applications.

Kitty R. Klein - District Director of Guidance and Testing, K-12……………..673-2101

673-2011

DEFINITION OF TERMS USED IN THIS GUIDE
MANDATED are those courses ALL students must pass in order to be eligible to graduate.

PREREQUISITES are the course requirements which must be met before a student may be scheduled for a specific course. Example: In Spanish, a student must have successfully completed Spanish II before he or she can register for Spanish III. Student must successfully complete Spanish III in order to enroll in Spanish IV.

ELECTIVES are courses which are not required and are selected by a student.

A SEMESTER or TERM is one-half of the school year.

As a rule, a UNIT OF CREDIT is granted for the successful completion of a subject studied one period a day, five days a week, for one year.

As a rule, a ONE-HALF UNIT OF CREDIT is granted for the successful completion of a subject studied one period a day, five days a week, for one term (or semester), or for less than five days a week for the entire year, i.e., three times per week for the full year.

WEIGHTED SUBJECT is any subject that is assigned a greater value than other subjects. Example: Most of our credit bearing subjects are assigned a value of 1.00. Those subjects which are “weighted” are assigned a value of 1.025, 1.05, 1.075, or 1.10. Refer to Weighting on page 6.

HIGH SCHOOL ATTENDANCE
The Board of Education works closely with parents and guardians to ensure regular attendance of all students. The school staff will discuss the importance of school attendance and offer assistance to parents and guardians of students who are excessively absent. Please consult the Huntington High School Student Handbook to review the District Attendance Policy. The handbook will explain: procedures, class participation as it relates to the attendance policy, and disciplinary consequences. There will be an annual review of this policy to make updates and revisions, as needed.
PROMOTION POLICY
Promotion to Grade 10: Completion of at least 5 credits; 3 of these credits must be English 9, Global History 9, and at least one Science or Math credit.

Promotion to Grade 11: Completion of at least 11 credits; included in these credits must be English 9 and 10, Global 9 and 10, a minimum of 3 credits total in Math and Science with at least 1 in Math and 1 in Science, and a minimum of 3/4 credit in Physical Education.

Promotion to Grade 12: A minimum of 15 credits including English 11 or U.S. History, a minimum of 1 year of Foreign Language credit (unless exempt through an IEP), and a minimum of one credit of Physical Education. Exceptions will be made for students who will have probable completion of all graduation requirements by August of the graduating year.

If all graduation requirements are not met by June, students may not participate in the graduation ceremony.

ALTERNATE WAYS OF EARNING CREDIT
The New York State Education Department Part 100.5 Regulation provides high school students with an opportunity to earn a maximum of 6½ units of credit towards a Local or Regents diploma without completing units of study. Eligibility is based on the student’s past academic performance, attendance at school, achieving a score of at least 85 percent on a Regents exam or its equivalent, and passing an oral examination or special project to demonstrate proficiency. A written request must be submitted by the student/parent. Further information can be obtained by contacting the student’s guidance counselor.

Please be advised that students who challenge an AP exam and earn a score of 4 or 5 may earn up to one credit for that course. The course will receive a grade of “P”.

COLLEGE CREDITS THROUGH SENIOR YEAR PROGRAMS
Huntington High School affords qualified high school seniors an opportunity to take college courses and earn college credits while learning in the high school environment. Students enrolled in these courses carry dual enrollment in the college program and in our high school. All courses carry credit that may be applicable toward a degree at other colleges and universities. To be eligible for college credit, students must complete the required registration forms and pay a tuition fee. Students enrolled in an AP course are required to pay and take the AP exam.

PROGRAM LEVELS
REGENTS (R): Designed to meet the needs of those students who can follow the regular New York State Education Department Syllabus, the Regents Program requires a Regents examination at the completion of specific courses.

HONORS (H): Honors programs are open to selected students. These courses cover the required content for the respective grades with in-depth exploration and enrichment. Students will study additional areas of personal interest or areas suggested by their teachers, evolving from expansion of the existing curricula.

ADVANCED PLACEMENT (AP): Advanced Placement courses offer students an opportunity to take a course taught on a college level. Both enrichment and college credit are available to the dedicated student. Intensive classroom work, independent study and research are an integral part of the program. The cost of taking AP Examinations is absorbed by the student. The examination is administered at the high school, and a five-point college-level scale is used. Students enrolled in an Advanced Placement course are required to sit and take the AP exam, which will be administered in May. A.P. examinations must be taken to receive the weighting in a student’s grade point average.
GRADING
The grade point average is the average of all final grades, including summer school, earned by a student by September of senior year. A half-year course has half the value of a one-credit course. Thus, the average of English 9R (1 credit) 90, Social Studies 9R (1 credit) 90, and Psychology (½ credit) 81, is an 88.2 (not 87).

Advanced Placement courses receive a weight of 1.1 in the GPA calculation. Thus, a grade of 95 in an AP course (1 credit) has a value of 104.5 in the GPA calculation. All credit bearing courses, except grades of P or F, are counted towards the GPA.

WEIGHTING
The final grade in all courses as they appear on the transcript is unweighted. At the completion of each year, a weighted grade point average (GPA) is determined. The weighted GPA is calculated by multiplying the final grade for each course by the appropriate course credit and weighting factor and then averaging the resulting grades.

For Students entering Grade 9 in September 2005 and thereafter, the weighting system is as follows:

<table>
<thead>
<tr>
<th>Course Type</th>
<th>Level</th>
<th>Weighting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Advanced Placement</td>
<td>5</td>
<td>1.1</td>
</tr>
<tr>

<td>1.075</td>
</tr>
<tr>
<td>Accelerated Math</td>
<td>3</td>
<td>1.05</td>
</tr>
<tr>
<td>Honors Band</td>
<td>2</td>
<td>1.025</td>
</tr>
<tr>
<td>All Others</td>
<td>1</td>
<td>1.0</td>
</tr>
</tbody>
</table>

RANK
Beginning with the Class of 2004, Huntington High School has adopted a policy of not ranking students on cumulative grade-point average relative to their classmates.

VALEDICTORIAN and SALUTATORIAN
The Valedictorian and Salutatorian is determined by the weighted average of all courses taken throughout the seventh semester of senior year. Eligible students must attend Huntington Union Free Schools for a minimum of three full academic years, prior to graduation. Eligible students must also be enrolled as a full-time student at the time of graduation.

HONOR SOCIETY
Election to the Honor Society is the most prestigious academic recognition a student can receive. To be considered for election to membership, students completing the first semester of the junior year must have an average of 90 or better (based on 9th and 10th grade grades). Students completing the first semester of the senior year must have an average of 90 or better (based on 9th, 10th, 11th grade grades).

Academically qualified students who are interested in being considered for membership must complete an application which allows them to evaluate their own qualities of citizenship, leadership and service. A faculty committee reviews the applications and selects candidates for membership in the Honor Society. The formal induction ceremony is held in the fall.

HONOR ROLL / HIGH HONOR ROLL
HONOR ROLL: A student will be eligible for the Honor Roll if he/she achieves a minimum weighted average of 85, and the student has no grades less than 65, as well as no grades of “F”, “NG,” or “I” (incomplete) for the quarter.

HIGH HONOR ROLL: A student will be eligible for the High Honor Roll if he/she achieves a minimum weighted average of 95, and the student has no grades less than 65 as well as, no grades of “F”, “NG,” or “I” (incomplete) for the quarter.
REPEAT REGENTS EXAM GRADES
By State regulation, a student is entitled to repeat any Regents exam in order to raise his/her examination grade. If a student retakes a Regents exam, only the higher score will be reported on the transcript. The new Regents exam grade will not affect the final course grade. In order to change a failing course grade, the course itself must be repeated, and both courses (the one that was failed and passed) will appear on the transcript. For some courses, where the Regents Exam counts as the final exam, the student will be required to take the test again, even if the student passed the exam earlier, as the test serves as 20% of the course grade for that year.

Students may choose to repeat a Regents Exam for the following reasons:

• Previous failure
• To meet graduation requirements for a Regents Diploma or Regents Diploma with Advanced Designation
• The personal pursuit of a higher grade

EARNING A DIPLOMA WITH HONORS
Students may earn a Regents Diploma with Honors or a Regents Diploma with Advanced Designation with Honors by achieving an overall average of 90 or higher on the Regents Examinations required for each diploma type. Averages below 90 may not be rounded up.

COURSE SELECTION AND SCHEDULING PROCEDURES
Closer to the midpoint of the year, students will complete a Course Selection Sheet indicating their choice of courses for the following year. Every effort will be made to acquaint students and parents with the requirements for graduation, subjects and courses offered, and special programs and assistance. Guidance Counselors will meet with students and parents individually to review course selections and graduation progress. Parents are notified of these meetings via mail. Parents may contact their child's guidance counselor to arrange a specific appointment times.

In May, students/parents will receive a letter and a copy of their current course requests. This is provided as a reminder to students and parents that all changes in course requests must be made before the last day of school.

Final schedules will be mailed home in mid to late August. Guidance Counselors are available prior to the start of the school year to answer questions. Students who have received a schedule that they feel contains an error should meet with their counselor on their assigned day and time.

HHS will try to schedule all the courses selected by a student; however, the following may affect a student's final schedule:

• If a course does not have sufficient enrollment, that course will not be offered. If this occurs, every attempt will be made to select a course from the student’s "alternate selections".
• If two courses are selected which are offered at the same time, the student can only be scheduled into one of them. Every attempt will be made to use the student’s “alternate selections” to enroll the student in a preferred course.
• If a student chooses a course that has a prerequisite and the student's final grade in the prerequisite course is not adequate; the student's schedule will be adjusted accordingly.

For these reasons, it is crucial that students complete the "alternate selections" section of the course request form. It is recommended that each student schedule a conference with his or her guidance counselor during the second semester of the school year to ensure proper registration for all the courses needed to meet any remaining graduation requirements.
In addition to meeting with their counselors, students should discuss and plan their schedule with their parents. Parents should work with their student’s counselor to make certain that the schedule reflects the scheduling policies and courses needed for graduation.

*Please Note:* If a course does not have sufficient enrollment to be offered, students may be enrolled in a class containing multiple levels of a course/subject area. Parents will receive written notification from the appropriate department supervisor.

**COURSE LOAD**
All students are scheduled for a nine-period day. Students are encouraged to supplement their required courses with electives to pursue interests or specialize in an area of study that will assist them in preparing for college and/or post-high school plans. Students must be enrolled in a minimum of six academic credits plus physical education each year except seniors, who are required to take a minimum of five academic credits plus physical education. Study halls will be used to fill up open periods in a student's schedule.

**COMMUNITY SERVICE**
During the 2015 - 2016 school year, all students will be required to complete a minimum of 10 hours of community service. Community service activities include clubs, honor societies, organizations or sports teams as listed on the “Community Service Eboard”. Students, with their parents’ consent, can use other service for credit. Such service may include volunteering at local organizations such a senior centers, hospitals, soup kitchens, Boy Scouts, Girl Scouts, etc.

Each quarter, students will need to meet with their guidance counselor and hand in their completed “Community Service Record Form”, for a minimum of 2½ hours and/or discuss available services they may consider to fulfill the required ten hours. Students will have up until the end of the fourth marking period to complete the ten hours. Completed service will be reflected in a passing grade for each quarter and will be identified on the student’s transcript as “P” or “F”.

**SCHEDULE CHANGE POLICY**
Please be aware of the Schedule Change Policy when course selections and their alternates are made. Careful choices during the course selection process should eliminate the need for schedule changes.

All student schedules for the upcoming school year are final as of the last day of school in the current school year. Courses may not be dropped after the last day of school. All students who register for a full credit course are expected to remain in the course for both semesters as scheduling is done on a full year basis. Students who wish to add a course in place of a study hall or lunch period, must do so before the 8th session of the requested course. Requests will be considered on the basis of course enrollment.

Beginning with the 2012 - 2013 school year, students registered in a half year or full year course will only be permitted to withdraw from a class up until the first five weeks (1st Progress Report period). Following the first five weeks, students who choose to withdraw from classes will receive a “WF” on their permanent record. “WF” indicates that the student was failing at the time of withdrawal.

A student's schedule may **ONLY** be changed under the following conditions:

- Missing or insufficient number of courses
- Course conflict or incorrect course(s) listed
- Completion of summer school or evening course
- An additional course needed to meet graduation requirements
Schedule changes will NOT be made for such reasons as:

- Change of teacher
- To arrive to school later
- To leave school earlier
- Preference to take a different course
- Change of lunch period

If there are any errors on your schedule, including name, address and phone number, or you feel that you have a valid request for a change in your schedule, please complete the Change Request Form and return it to the Guidance Department.

**REQUEST TO CHANGE COURSE LEVEL**

Students may request to change the level of a course (Regents, Honors, AP) if they feel that they are inappropriately placed. To change a course level, a consensus must be reached by the student, parent/guardian, counselor, teacher, department supervisor, and Director of Guidance. Please note that level request changes may disrupt other courses in a student’s schedule.

In order to request a change of course level, a student must complete the following steps:

1. The student must meet with counselor to discuss his/her request.
2. The student and parent complete section I of the "Request to Change Course Level" form.
3. The student must meet with his/her teacher and department director to discuss his/her request and obtain the necessary signatures.
4. Once sections 1, 2, and 3 are completed, the student should return the “Request to Change Course Level” form to his/her guidance counselor.
5. If a consensus is reached to change the course level, the schedule change will be made within 2 days of receipt of a completed form.

**ACADEMIC INTERVENTION SERVICES (AIS)**

Academic Intervention Services (AIS) are mandated by the NYS Education Department. These services are intended to assist students who are at risk of not achieving the State Learning Standards in English Language Arts, mathematics, social studies and/or science, or who are at risk of not gaining the knowledge and skills needed to meet or exceed designated performance levels on required state assessments. As a result, all students will be programmed for AIS prior to any elective requests.

AIS shall be provided when students, in grades nine to grade twelve, score below the State designated performance level on one or more of the State intermediate assessments in English Language Arts, mathematics, social studies or science, or score below the state designated performance level on any one of the state examinations required for graduation. AIS courses take precedence over elective courses. No credit is granted for AIS courses.

A student may be removed from an AIS course **ONLY** if:

- The student demonstrates adequate skills to achieve minimum standards on the required state assessments needed for graduation.
- A student who is receiving AIS to meet minimum standards on an assessment retakes and passes that exam. (This could occur in January or June of any given year).

In order to be removed from AIS, the teacher of the student receiving AIS must initiate the AIS Change Form. This form must be approved by the supervisor of the department and will then be forwarded to the student's guidance counselor.
**EARLY RELEASE**
Permission to leave school early in order to maintain jobs after school may be granted to seniors. Permission will be granted only after all students have been scheduled. During the scheduling process, all nine periods will be used to schedule each student. If the schedule a student receives shows a study hall for the ninth period and if the student is employed, the student may apply for permission to leave school during the study hall; however, classes scheduled for ninth period will not be changed to accommodate early release.

**SUMMER SCHOOL**
As a result of our review of summer school program records, we have made a number of changes in our registration and grading practices in order to ensure that the acquisition of knowledge remains the focus for all students attending summer school. Here are the requirements/procedures we have put in place:

Students will be asked to show their commitment to passing a course during the year by attending classes consistently and achieving a minimum grade of 50 before they can be permitted to register for the 6 week review version of that course in summer school.

- The summer school grades will be averaged with the yearly grade in a 60/40 ratio to determine the new course grade.

- Seniors who fail one (1) required course will automatically be able to register for summer school even if their yearly grade falls below 50.

- Seniors who fail two (2) or more classes needed for graduation will need approval from the Principal and Director of Guidance in order to register for summer school.

- If special circumstances exist, students may request that the Principal and the Director of Guidance review their eligibility for summer school.

- Students who have not met the science lab requirement during the regular school year will not be permitted to register for the science course in summer school.

- As in the past, summer school is provided for remediation, not enrichment. Therefore, only students who fail a course will be eligible for summer school.
DEPARTMENT OBJECTIVES:
Huntington High School strives to provide an expansive array of Art course offerings. High School students have the opportunity to take advanced studies in the fine arts of drawing and painting, ceramics and sculpture, and fashion design, as well as technology based programs such as computer graphics, advertising and design, media art, video, photography and animation.

Our faculty members are all professional artists with specific areas of specialization. Skills learned in the visual arts courses are applicable to hundreds of careers in our highly visual world. High School seniors may also participate in career internships in all areas of the visual arts. Huntington students’ art work is frequently displayed and honored in many local exhibits and competitions.

To fulfill the graduation requirement of one credit in Art, students may take Creative Crafts, Media Art, or Studio in Art.

Sample of Fine Arts Sequence:

**9th Grade:**
- Studio in Art or
- Drawing and Painting I

**10th Grade:**
- Drawing and Painting I or
- Drawing and Painting II

**11th Grade:**
- Pre-AP Studio Art: Drawing

**12th Grade:**
- AP Studio Art: Drawing

Sample of Technical Art Sequence: (3years)

**Year 1:**
- Computer Graphics or Introduction to Photography or Creative Video I

**Year 2:**
- Advanced Computer Graphics or Advanced Photography or Creative Video II

**Year 3:**
- AP Studio Art: 2-D Design or Advanced Video Production III

**Note:** Students who take Media Art in year 1 will need four years to complete the sequence.

STUDIO IN ART - Course #611
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Recommended for students interested in fine arts.
Prerequisite: None.
Studio in Art is a course in the fundamentals of the fine arts which will allow you to experience a whole world of creative self expression. A student taking Studio in Art will learn about and experiment with the basic design elements such as line, shape, color, texture, and value. Students develop or sharpen their art skills while handling such media as watercolor and acrylic paint, pencil, India ink, block print ink, charcoal, pastel, and ceramics. This course satisfies the one credit in Art required for graduation.

CREATIVE CRAFTS - Course #618
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Recommended for students interested in developing their creative potential through crafts.
Prerequisite: None
This course is designed to introduce students to materials and techniques used in traditional and contemporary crafts. Ceramics, textile art, jewelry, basketry, glasswork and woodwork are just some of the exciting projects included in the program. Students will gain an appreciation for the cultural roots of hand crafted objects as well as career opportunities and marketing outlets. Everyone can succeed in making beautiful art while expressing your creativity! This course satisfies the one credit in Art required for graduation.

MEDIA ART - Course #620
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Recommended for students interested in a course of study in the digital arts such as computer graphics, photography, cartooning and animation.
Prerequisite: None
Media Arts is an exciting course that combines computer graphics, animation and Internet media. You will have an opportunity to work directly with computer art presentation software, desktop publishing, animation, the Internet and software to design Websites. Art projects will be developed using the technology resources available in our graphics computer lab. This course satisfies the one credit in Art required for graduation.

COMPUTER GRAPHICS - Course #630
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisite: None for grades 10-12. Ninth grade students must have taken Studio in Art in grade 8, or be simultaneously registered for an Art or Music course that fulfills this graduation requirement.
This course is an introduction to the creative use of computer graphics through various design software. The elements and principles of design are examined through graphics programs such as Adobe Photoshop and Illustrator. The impact of digital technology on art is explored.
ADVANCED COMPUTER GRAPHICS - Course #613
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Computer Graphics
An advanced level computer based art course exploring the theoretical and practical aspects of contemporary graphic design, advertising, imaging and illustration. The emphasis will be on rendering, design and composition. Student projects will be self-proposed and guided. Students will be shown experimental techniques in outputting their artwork. There will be a focus on current artists using digital technology to create their art. Student work will be compiled into a portfolio for their own use. Students will be exposed to a variety of careers that center on computer-generated art.

PRE-AP STUDIO ART: DRAWING - Course #627
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Drawing & Painting. No AP weighting for this course.
This course is offered to 10th & 11th graders who are interested in taking the Advanced Placement Studio Art: Drawing Portfolio Course/Exam or 12th graders who are interested in creating a drawing and painting portfolio for college admittance. In this course, students will create a portfolio of 12 pieces of art that explores various drawing and painting techniques and methods that will be used for the Breadth and Quality sections of the AP Studio Art Exam. In the Breadth section, students are asked to demonstrate a serious grounding in visual principles and material techniques. The Quality section permits students to select the works that best exhibit a synthesis of form, technique, and content. The course emphasizes the individual studio experience and the application of both concept and technique to empower artistic direction. With successful completion of this course, students will gain admittance into the AP Studio Art: Drawing Portfolio course.

Guidelines for Placement in AP Studio Art: Drawing and 2-D Design
AP Studio Art is a two-year course for highly dedicated art students. Students interested in taking the AP Studio Art I/II sequence must begin by taking Studio in Art followed by Drawing and Painting I and, if possible, Drawing and Painting II. Although some students may be able to enroll in the class during their sophomore year, it is highly recommended to take AP Studio Art I/II during a student’s junior and senior years.

Any student who does not meet these requirements can gain admittance into the class only by approval of the Director of Fine and Performing Arts.

ADVANCED PLACEMENT (AP) STUDIO ART: DRAWING - Course #629
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 12, Grade 11 students must have department approval.
Prerequisites: Successful completion of Pre-AP Studio Art: Drawing, a portfolio of 12 pieces of art and department approval. AP weighted course.
The AP Studio Art: Drawing course is designed for highly motivated students who are seriously interested in experiencing a college-level Drawing/Painting course. The course demands time, diligence, and focus. For the AP Studio Art: Drawing exam, students submit a portfolio that is comprised of three sections: (1) Quality, (2) Concentration, and (3) Breadth. The AP Studio Art: Drawing course focuses on the completion of the Concentration section of the AP Studio Art exam. In the Concentration section of the exam, students must demonstrate a depth of investigation and process of discovery through a body of 12 pieces of art that share a single theme. In early May, students will submit a portfolio of 24 slides and 5 actual art pieces for evaluation to the College Board.
ADVANCED PLACEMENT (AP) STUDIO ART: 2-D DESIGN - Course #628
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 12, Grade 11 students must have department approval.
Prerequisites: Advanced Computer Graphics or Advanced Photography, a portfolio of 12 pieces of art and department approval. AP weighted course.
The AP Studio Art: Design Portfolio course is designed for highly motivated students who are seriously interested in experiencing a college-level 2-D design/Graphics or Photography course. The course demands time, diligence, and focus. For the AP Studio Art: 2-D Design Portfolio Exam, students submit a portfolio that is comprised of three sections: (1) Quality, (2) Concentration, and (3) Breadth. AP Studio Art: 2-D Design Portfolio course focuses on the completion of the Concentration section of the AP Studio Art Exam. In the Concentration section of the exam, students must demonstrate a depth of investigation and process of discovery through a body of 12 pieces of art that share a single theme. In early May, students will submit a portfolio of 24 slides and 5 actual art pieces for evaluation to the College Board.
Note: It is strongly recommended that students take “Drawing & Painting I” prior to this course.

CERAMICS AND SCULPTURE I - Course #615
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Recommended for students interested in a studio elective. This course is applicable for Advanced Placement application.
Prerequisite: None for grades 10-12. Ninth grade students must have taken Studio in Art in grade 8, or be simultaneously registered for an Art or Music course that fulfills this graduation requirement.
This course is designed for students who want to learn to create three dimensional work that is both beautiful and lasting. You will get a basic introduction to hand-building clay techniques as well as the use of the potter’s wheel. Glazing and other fine finishing techniques will help embellish your work. In this course you’ll learn various sculpting techniques using wood, wax, stone, plaster, clay, metal and mixed media.

CERAMICS AND SCULPTURE II - Course #616
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Recommended for students interested in an advanced studio elective as well as for Advanced Placement application.
Prerequisite: Ceramics and Sculpture I
Emphasis on individual growth and development of learned techniques as it applies to modeling, carving, wheel work, glazing, casting and construction methods.

CERAMICS AND SCULPTURE III - Course #617
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 11, 12
Recommended for students interested in specializing in an advanced studio elective as well as for Advanced Placement application.
Prerequisites: Ceramics and Sculpture I & II
In this course, you’ll be working on major pieces of art while developing your own individual style in your favorite 3-dimensional medium. You’ll learn advance working techniques geared to your individual level of skill and take pride in the work you create.

DRAWING AND PAINTING I - Course #621
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Recommended for students with an interest in digital media and fine arts.
Prerequisite: Studio in Art
This course is for those art students who want to develop their techniques and skills in seeing and drawing accurately in all two dimensional media such as charcoal, pastel, pen and ink, pencil and paint. You will study life drawing with an emphasis on understanding the human structure.
DRAWING AND PAINTING II - Course #622  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Recommended for students with an interest in digital media and fine arts.  
Prerequisite: Drawing and Painting I  
This course is a continued study of many techniques and a variety of subject matter and media. Emphasis will be placed on creativity and individual growth as well as on figure drawing with a freer approach to interpretation and composition.

INTRODUCTION TO PHOTOGRAPHY - Course #632  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisite: None  
Photography is an exciting course where students learn all about black and white photography. If you choose this course, get ready to learn a skill which will last you the rest of your life and bring you enormous pleasure and self satisfaction. You will learn how to shoot and create well-balanced, well-composed photographs. You will learn about photographic equipment, develop your own black and white negatives and prints, and analyze your own work as well as the work of others. During the second semester, more time is spent in the darkroom. As your skills develop, you will have the opportunity to make larger prints, to use contrast filters, and to refine your printing techniques. You will learn about portraiture, photojournalism, and produce portfolio-level matted prints.

ADVANCED PHOTOGRAPHY - Course #633  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 11, 12  
At this level, it is suggested that students have their own manual 35mm single lens reflex camera.  
Prerequisite: Introduction to Photography  
In this course you will expand knowledge gained from Introduction to Photography. The emphasis will be on producing prints of exhibition quality, based upon self-motivated film assignments and student-centered creative interpretation. There will be an in-depth study of significant photographers and a research paper. During the 2nd semester you will continue to establish your unique personal style. An introduction to digitized images using Adobe Photoshop will enable you to use computer-generated images.

CREATIVE VIDEO I - Course #634  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 9, 10, 11, 12  
Recommended for interested students.  
Prerequisites: None for grades 10-12. Ninth grade students must have taken Studio in Art in grade 8, or be simultaneously registered for an Art or Music course that fulfills this graduation requirement.  
In Creative Video you will produce your own videos using state of the art equipment as a hands-on experience. Take advantage of a unique opportunity to become involved with the dynamics of movie making. You will complete a variety of projects including music videos, commercials and documentaries. Working in small groups, the class will go through the steps of video production from original concept to a finished video product.

CREATIVE VIDEO II - Course #635  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisite: Creative Video I  
Build on what you have learned in Creative Video I by expanding your skills and techniques. Explore the video art forms of public service announcements, rotoscoping, multi-cam editing, and short stories.
ADVANCED VIDEO PRODUCTION III - Course #636
(1 Year - 1 Credit) 5 periods weekly
Prerequisites: Creative Video II
Advanced Video is a more in-depth examination of the video making process. The class is geared towards students who are serious about honing their artistic vision through the moving image media. Students will continue to develop their skills in video art-making, and find venues for their projects through festivals, on-line exhibition, and site specific installation. In addition, they will choose a videographer/filmmaker to study and create a presentation using their video-making skills. Finally, this class will give students access to basic filmmaking materials and techniques. Through an exploration of film, students will understand the various differences and similarities between the moving images.

PORTFOLIO DEVELOPMENT - Course #639
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 11, 12
Prerequisite: Intention for post-graduate study in Art and department permission.
This is an exciting course that allows all art majors to develop a professional portfolio of their art work. Quality rather than quantity is stressed, for this course can assist you in gaining acceptance into an art college. Visits from various colleges as well as professionals in diverse art careers will be arranged. This course is strongly recommended for advanced video and computer graphics students to develop advanced drawing skills.

FASHION DESIGN AND ILLUSTRATION I - Course #624
(1 Year - 1 Credit) 5 periods weekly
Prerequisites: None for grades 10-12. Ninth grade students must have taken Studio in Art in grade 8, or be simultaneously registered for an Art or Music course that fulfills this graduation requirement.
This is an introductory level course. The course will introduce students to the world of fashion by studying its history from ancient times to the 1900’s. Students will learn about apparel construction and illustration, and textile design. This course gives students the opportunity to design and create a bag and to make a simple garment from a pattern. All fashion students will present their work in the school’s Annual Fashion Show in May.

FASHION DESIGN AND ILLUSTRATION II - Course #625
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Studio in Fashion Design & Illustration I
This course will expand and develop the knowledge and skills gained from Studio in Fashion Design & Illustration I. Students will use these skills to design and present a mini fashion line. There will be a final presentation of their line at the Annual Fashion Show in May. Students will also learn to design by working on a dress form and examine the world of fashion by studying its history from the 1900’s to current Haute Couture.

FASHION DESIGN AND ILLUSTRATION III - Course #626
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Studio in Fashion Design & Illustration II
This is a third level course. This course will introduce students to career paths in the fashion industry. The emphasis will be on practical application of disciplines learned in prerequisite fashion courses. Fashion III features opportunities to apply previous studies to real world applications. Students will design for both mass and niche markets, combining creativity with marketability and practice production planning from both a local and global perspective. Students will assemble a professional portfolio of illustrations or sewn garments. The final quarter culminates in a fashion show presented at the yearly art show.
BUSINESS EDUCATION AND TECHNOLOGY

DEPARTMENT OBJECTIVES:
The world of business is waiting for you! Are you prepared? All careers, professions, and jobs involve some area of business. For some careers, you must study beyond high school while for others you may enter the world of work upon graduating from high school. Nevertheless, the skills you learn in the business classes will prepare you to enter the work force.

Students interested in completing a 5-unit sequence in Career and Technical Education should speak with their guidance counselor regarding course sequences.

ACCOUNTING I - Course #700F
(1 Semester - ½ Credit)
Accounting is the “language of business” and is a necessary course for all college business majors. This one semester course teaches students the fundamentals of accounting necessary for keeping records for business and/or personal use, with a focus on sole proprietorships. This course will assist students in becoming critical thinkers and problem solvers, and is the prerequisite to Accounting II.

ACCOUNTING II - Course #700S
(1 Semester - ½ Credit)
Prerequisite: Accounting I
Building your foundation now with this advanced-level accounting course designed for the future accountant. Information will be applied in a variety of novel situations. With a focus on businesses organized as partnerships, students will continue to practice their craft through multiple examples and business simulations. They will transition from maintaining a written set of books to the use of Microsoft Excel utilizing it as a tool to expedite their accuracy and productivity.

BUSINESS COMPUTER APPLICATIONS (B.C.A.) - Course #718
(½ Year - ½ Credit) 5 periods weekly
Prerequisite to grades: 9, 10, 11, 12
Prerequisite: None
This course offers a “lifelong skill” for success in our ever changing world of technology. Students are taught to touch type and maximize their efficiency and produce professional documentation using the Microsoft Office Suite (Word, Excel, Access, PowerPoint and Publisher). After successful completion of this course students will be able to create and edit text, prepare all forms of personal and business correspondence as well as essays, research papers and virtual presentations.
BUSINESS LAW - Course #704
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Do you have a plan for your future? No? Well it’s not too late. Few subjects are as dramatic, challenging or relevant as LAW. Learn how the legal system works and recognize legal problems. This course emphasizes the relationship of law to your personal life. Topics include: white-collar crimes, civil actions, ethics and agency law from the sports, entertainment, and employer perspective. Your rights as a consumer, an employee or employer will be explored. How about reading a contract? Do you know how to draw one up? Are you interested in starting a business of your own or working for someone that does? Should it be a sole proprietorship, partnership, or corporation? Leases, mortgages, credit, bankruptcy and other forms of financing will be explored. You never know what the future has in store for you, the best thing you can do is prepare. So, whether you are interested in pursuing a career in law, planning to attend college, or preparing to enter the work force, this course has something for you.

BUSINESS MANAGEMENT AND HUMAN RELATIONS - Course #701S
(½ Year - ½ Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisite: None
This course will help you acquire the skills necessary to make informed decisions, as well as provide you with information vital to realistic career choices. We will make you aware of the economics of work and you will develop an understanding of the marketplace. In addition, we will analyze your likes, dislikes, unique characteristics, competencies, and weaknesses with the intention of adding to your self-awareness. Problem solving and decision-making skills will also be taught. **This course is required for a Business sequence.**

CAREER AND FINANCIAL MANAGEMENT - Course #701F
(½ Year - ½ Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisite: None
This course will provide students with the opportunity to learn about the features of our economy, explore a variety of careers, learn the skills and competencies needed for success in the workplace and become financially literate. Among the areas to be studied are: economic systems, effect of technology on the labor market, business systems and their organization, career planning and lifelong goals, changing trends and employment opportunities, resumes, job interviews, personal qualities for employment, interpersonal skills, working conditions and benefits, time management, workplace laws and unions, banking, personal budgets, credit, insurance and consumer protection. **This course is required for a Business sequence.**

PERSONAL LAW I - Course #709F
(½ Year - ½ Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Are you interested in law? Do you want to be more informed about the laws that will affect you both today and in your immediate future? If so, then this course is for you. The scope of the Personal Law course (formerly known as Street Law I) investigates units in civil rights and liberties, employment law, family law and housing law. Guest speakers and authentic experiences provide the student with a real world view of our legal system.
PERSONAL LAW II - Course #709S  
(½ Year - ½ Credit) 5 periods weekly  
Offered to grades: 9, 10, 11, 12  
Prerequisite: None  
Personal Law II (formerly known as Street Law II) presents contemporary legal issues and provides students with an in depth exploration of juvenile justice, torts against the individual, consumer law, credit for the consumer, insurance, and probate law. This course is highlighted by a Moot Court competition where students prepare and argue civil law and negligence cases heard by guest judges. Guest speakers and authentic experiences provide the student with a real world view of our legal system and a better understanding as to how to protect them legally. Personal Law I is not required as a prerequisite for this course.

SPORTS MARKETING - Course #703  
(½ Year - ½ Credit) 5 periods weekly  
Offered to grades: 9, 10, 11, 12  
Recommended for college-bound business and marketing majors and anyone interested in the field of sports and its impact.  
This half-year course is designed to provide an insight into the executive level decision-making and analyzing in sports marketing. Case studies and news media will be used to position the student in the role of a sports marketer. Suggested topics that will be explored are: an orientation to marketing as it relates to the sports industry, market analysis, athletes making economic choices, professional sport trades, supply and demand in sports, financial analysis of teams, the sports labor market, discrimination in sports and sports promotion. Classroom instruction will be reinforced through outside use of guest speakers, field trip to a stadium, videos and the Internet.

WOOD SHOP - Course #690  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
This course is a broad foundation of the basic woodworking processes and includes the use of all the major equipment. Typical of the work carried on is furniture construction for the home. Attention is given to the reading of plans and blueprints and the study of good design in project construction. Skill level will determine the types of projects assigned.
The Student Internship Program is designed to provide seniors with opportunities for enrichment activities that go beyond the traditional academic experience. During the year, students will pursue a career and develop a creative project.

Participants will earn one academic credit for their yearlong placement. Students are required to work under the supervision of their mentor and to maintain a detailed journal reflecting on completed activities and knowledge gained from their experiences. Interns will be expected to participate in monthly meetings with program coordinators.

Beginning in May, each student will present their creative project, a culmination of their internship experience. Students may invite guests and family members to be a part of the presentation.

**CRITERIA TO CONSIDER WHEN PROPOSING AN INTERNSHIP**

In order to be eligible for school credit, the internship proposal should involve one of the following criteria:

1. Interest in exploring a particular career path
2. Enrichment or extension of an academic pursuit
3. Opportunity in the arts
4. Interest in exploring hands on experience in a particular vocation or trade
ENGLISH AS A SECOND LANGUAGE

This is a state and federal mandated program which seeks to provide intensive English skills to non-English speaking students using ESL methodologies and techniques. The students in this program are held to the same high standards as their English speaking counterparts, thus, the teachers incorporate all of the language arts modalities of listening, speaking, reading and writing. These classes not only teach English Language Arts but also teach English through the content area.

The process of learning a second language is very similar to that of learning a first language. Studies have shown that the process of learning a second language, both for social skills and academic skills, take between 6 to 10 years. Students are required to complete the program within 3 years; an additional extension of services for three extra years can be requested from the New York State Education Department, Office of the Bilingual Education and Foreign Language Studies. Students who do not pass the NYSESLAT, after receiving ESL services for 6 years, must continue in the program until they score at the Proficiency Level on the NYSESLAT.

Native Language Arts
This course has been established following Commissioner’s Regulation Part 154 Guidelines which states, that a bilingual program must be put in place when there are 20 or more students who speak the same language in the same building and grade. As a result, the beginning LEP/ELL students are placed in Native Language Arts to help them acquire or improve their reading and writing skills in Spanish. The skills learned in Spanish will be transferred to English, making it possible for these students to acquire English at a faster pace.

Initial Identification and Placement
Newly registered students whose Home Language Questionnaire (HLQ) indicates that a language other than English is spoken at home, must be tested using the NYSITELL for identification and initial placement after an initial interview in both English and their native language. The test is used only once at the time of registration in any school district in New York State. After this, the ELLs will be tested for English language development using the NYSESLAT.

The different levels of English language development as per the NYSESLAT are:

**LEVEL / PERIODS: ENL, NLA, ENGLISH**

<table>
<thead>

<tr>
<td>Advanced/Expanding</td>
<td>Exit ENL</td>
<td>Students who score Proficient are entitled to ESL accommodations, when taking state exams, for 2 years after they exit the program.</td>
</tr>
</tbody>
</table>

In order to be placed at a level, ELLs must score the same on L&S (Listening and Speaking) and R&W (Reading and Writing). If they score differently, they will be placed at the level where they scored the lowest. The NYSESLAT is the only tool allowed by the Commissioner’s Regulations Part 154 to exit the ESL Program.

When students reach the Advanced level, they will receive additional services in Reading and Writing. Students at the Beginner and Intermediate levels are placed in bilingual and/or ESL content area classes; students at the Advanced level are placed in mainstream content area classes.
ENGLISH LANGUAGE ARTS

DEPARTMENT OBJECTIVES:
The English Department offers a wide variety of courses which not only meets students’ academic needs, but also encourages them to explore their fields of interest. The program in grades nine, ten, and eleven consists of courses designed to work with students on various language arts skills, from reading comprehension, to literary analysis and research. The curricula in these courses are fully aligned to Common Core State Standards, providing instruction in close reading of fiction and non-fiction texts, making strong evidence based claims, and including a rigorous research and writing regimen. It culminates in a number of highly specialized seminar topics in senior year where students begin to explore personally the broad range of literary genres and themes. All students are required to take a full year of English each of the four years that they attend high school. In senior year, students take the capstone 4th year high school English experience, either the two consecutive 12th grade English Seminars, or AP. All students in English classes complete research projects. Research skills introduced and practiced at each grade level are developmentally appropriate. Eleventh and twelfth grade English students will complete a formal research paper meeting and exceeding the Regents standards. Students compile a cumulative writing folder throughout the four years in HHS.

The workload in honors English sections is highly challenging, as are the reading selections and schedules. Be sure to note the prerequisites for entering these courses. Also note that students must submit writing samples from their course work when applying to enter the honors or AP program.

The three English Department half credit electives are offered in a single semester. These three courses are highly enriching, particularly for students with interests in creative writing, journalism and theatrical performance. Students should check with their guidance counselors for course availability. We urge students and their parents to read course descriptions carefully, taking particular note of prerequisites and objectives.

New York State has adopted the Common Core State Standards confirming the level of rigor required in all Huntington High School English classes. Our students experience direct and contextual vocabulary instruction together with curricula that are fully aligned with Common Core State Standards as noted above.

23
ENGLISH 9 REGENTS - Course #112
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of English 8
This is a challenging course centered around the hero in literature. The aim is to help students develop critical thinking and clear communication. These goals are achieved through intensive class study of demanding selections such as Hamilton’s Mythology, Penguin Classic translation of the Odyssey and a Shakespearean play. There are also numerous supplemental reading assignments from recommended lists. High achievement is expected in all areas but especially in reading comprehension and process writing. There is a departmental medial assessment and final examination. NCAA approved

FOUNDATIONS (AIS) - Course #116-9, 116-10, 116-11
(1 Year – no Credit) Alternating Days
This course provides academic support for students in grades 9, 10, and 11, who need to meet proficiency in ELA skills and content. The course is designed to enhance skill growth, with a focus on writing, enabling students to achieve on a proficient level on the NYS English Language Arts Regents.

ENGLISH 9 HONORS - Course #113
(1 Year -1 Credit) 5 periods weekly
Recommended for students of exceptional ability in English.
Prerequisites: Completion of English 8 with a grade of 90 or better and recommendation of English 8 teacher and Chairperson’s approval and consideration of ELA scores and writing samples.
This is the initial course in the program that leads to the Advanced Placement Examination in English. The course theme is the hero and his guest. The aim is to have the student develop critical thinking and clear communication as well as to grasp a sound understanding of mythological, legendary, and Biblical culture and stories as preparation for more thorough understanding of literature. The goals are achieved through the study of The Odyssey, a Shakespearean play, as well as novels, short stories and poems by such authors as Sophocles and Golding. Students write frequently and will receive intensive instruction in spelling, grammar, process writing, and oral presentation. Additionally, numerous critical research assignments are required. There is a departmental medial assessment and final examination. NCAA approved

ENGLISH 10 REGENTS - Course #122
(1 Year -1 Credit) 5 periods weekly
Prerequisite: Successful completion of English 9
English 10 Regents is a challenging course that focuses on individual identity and crucial decisions. It includes much independent reading and frequent writing assignments. Among the works studied are a Shakespearean play and such novels as The Kite Runner; A Catcher in the Rye; Macbeth and The Lord of the Flies. High achievement is expected in all areas, especially in reading comprehension, critical analysis, and writing. There is a departmental medial assessment and final examination. NCAA approved

ENGLISH 10 HONORS - Course #123
(1 Year -1 Credit) 5 periods weekly
Recommended for students of exceptional ability in English.
Prerequisite: Completion of English 9 Honors with a grade of 85 or better or English 9 Regents with grade of 90 or better, and recommendation of English teacher and Chairperson’s approval and writing sample. This co-requisite is required of any student advancing in level.
This is the second course in the program that leads to the Advanced Placement Examination in English. The theme of the course is The American Experience. The aim is to have the student develop critical thinking and clear communication. The syllabus concentrates on American literature with units on short stories, essays, novels, poetry, and drama. The works of Poe, Hawthorne, Twain, Melville, Thoreau, Miller, Morrison, Hurston, and Monk Kidd are studied. There are frequent compositions to develop organization and clarity. Additionally, research in literary criticism is fundamental to the course. There is a departmental midterm assessment and students will take the Common Core English Regents exam in June as 10th graders. NCAA approved
ENGLISH 11 REGENTS - Course #132
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of English 10
English 11 Regents is a challenging course focusing on American literary greats and the themes of Humanity in Conflict and the American Dream. Research techniques and the research paper are emphasized. High standards of achievement are expected in all areas, particularly in composition. Students read novels such as Othello and The Great Gatsby. A research paper is required. All students having entered Huntington High School as a freshman in 2013 – 2014 are required to take the new Common Core ELA Regents in June 2016. NCAA approved

ENGLISH 11 HONORS - Course #133
(1 Year - 1 Credit) 5 periods weekly
Recommended for students of exceptional ability in English.
Prerequisites: Completion of 10 Honors with a grade of 85 or better OR completion of 10 Regents with grade of 90 or better and recommendation of English teacher and Chairperson’s approval and writing sample. This co-requisite is required of any student advancing in level.
This is the third accelerated course in the program that leads to the Advanced Placement Examination in English Literature and Composition. The syllabus concentrates on English literature organized under four literary genres: The essay, the novel, poetry, and drama. Students read works such as, Canterbury Tales, Paradise Lost, Brave New World, essays, and poetry. There are frequent written assignments supporting the development of critical thinking and clear communication. A major research paper is required. Students are required to take the ELA Regents if they haven’t already done so as sophomores. A midterm and final exam are required. NCAA approved

ADVANCED PLACEMENT (AP) ENGLISH LANGUAGE AND COMPOSITION - Course #134
(1 Year - 1 Credit) 5 periods weekly
Recommended for students of exceptional ability in English.
Prerequisites: Completion of 10 Honors with a grade of 88 or better OR completion of 10 Regents with grade of 92 or better and recommendation of English teacher and Chairperson’s approval. Students will also submit an academic writing sample for review. (This course is also open to 12th graders, in fulfillment of 12th grade English requirements if students are coming from English 11 Honors)
This college level course features advanced composition and research skills. The syllabus concentrates on English literature, with an emphasis on non-fiction works. Students study a variety of prose pieces to notice variations in style and purpose, ultimately understanding both the implicit and explicit relationships among diction, syntax, tone and content. Through a variety of writing activities, they will apply such conventions and language resources to their own expository, analytical and argumentative writing. Multiple impromptu and formal essays are required. A college level research paper is required. Students must take the Advanced Placement English Language and Composition Examination in May. Students are required to take the ELA Regents, in January, if they haven’t already done so as sophomores. A midterm and final exam are required. NCAA approved

TWELFTH GRADE SEMINARS
In grade 12, students must complete one credit of English. This requirement can be met by taking:

AP English Literature and Composition

OR

Choosing two of the following ½ year seminar courses (fall and spring pairs). For these pairs, the literature theme focus is on maturity and sensitivity.

ADVANCED PLACEMENT (AP) ENGLISH LITERATURE AND COMPOSITION - Course #135
(1 Year - 1 Credit) 5 period weekly
Offered to: Grade 12
Recommended for students of exceptional ability in English.
Prerequisites: Completion of 11 AP with a grade of 85 or higher, completion of 11 Honors with a grade of 88 or better or completion of 11 Regents with a grade of 92, recommendation of English teacher and Chairperson’s approval and writing sample. English Regents Score 85-100. The curriculum for this course is designed to foster careful reading and analysis of classical and contemporary literature representative of the world literature canon. Students read and research criticism of selected works, and develop their own critical standards for interpreting a variety of literary genres. The challenging reading list includes works by Shakespeare, Dostoevsky, Allende, Nabakov, Achebe, Atwood, and Garcia-Marquez. Through a careful study of schools of literary criticism, students are exposed to the canon debate, and learn to identify major tensions, formalistic elements and archetypes in literature. Students are also trained to view literature from biographical, historical and culturalist lenses. In addition, language usage skills and vocabulary development are integrated into a series of weekly writing workshops. A midterm is administered in January. Students must take the Advanced Placement Exam in May.
NCAA approved

BIBLE LITERATURE - Seminar - Course #161F
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
The Bible Literature focuses on the Bible itself, its history, its authors, literary forms, techniques, the people, and places introduced through the Bible. Stories are approached in terms of plot, characters, setting, and theme. Poetry is analyzed in terms of imagery and parallelism; drama in terms of conflict and character; prophetic literature is studied for the content of the message and for the style of the individual prophet. Wisdom literature is approached from the universality of its themes and imagery. The Gospels, Acts, and Epistles are studied for the diversity of the narrative style, point of view, and purpose. A research paper is required. NCAA approved

HUMANITIES - Seminar - Course #163S
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
The Humanities interrelate literature, drama, art, architecture, music, and the philosophies that unify them. The course is built around such general themes as Love and Hate, Good and Evil, and The Question of Identity. The range of material is from Mesopotamia to the 20th Century, emphasis is placed on student involvement, individually and in small groups, and the skills of reading, writing and speaking. A research paper is required. NCAA approved

MULTICULTURAL LITERATURE - Seminar - Course #171F
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
This course traces and examines literature and cross cultural writers who define their positions in history and society. Roles of African-Americans, Native Americans, Arab-Americans, Asian-Americans and Hispanic-Americans are the focal points. It concentrates on reading various forms of literature which reflect these cultures’ roles, backgrounds, positions and feelings. Gender issues and religious culture are also discussed. Authors such as Amy Tan, Judith Ortiz Cofer, Zora Neale Hurston, and Khaled Hossaini are studied. A research paper is required. NCAA approved

HOLOCAUST IN LITERATURE - Seminar - Course #181S
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
This course involves a multi-disciplinary study of the Holocaust as it relates to racism, prejudice and tolerance. Through the use of literature and historical documents, students comprehend the ramifications of this tragic event as it impacts on the present and future. Works such as The Sunflower and Maus I and II are studied. A term paper and a project are required. NCAA approved
JOURNALISM – Seminar or Elective - Course #162F
(½ Year- ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
This course can also be taken as an elective in grades 10 & 11
Journalism is an elective course open to all 10th, 11th, and 12th grade students. Seniors only take the course as a senior seminar. Students contribute to the high school newspaper and share responsibility for its interview, feature writing, problems of the press and a history of journalism. This course is strongly recommended for students on the DISPATCH staff. NCAA approved

MYSTERY LITERATURE - Seminar - Course #173S
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
The course consists of a close reading of a small number of important mystery works. They include *The Maltese Falcon; and Then There Were None; Postmortem; a Study in Scarlet,* and others. In addition, there is a short story unit, beginning with Edgar Allan Poe’s, “The Murders in the Rue Morgue,” and other titles. Each student must select three other mystery novels; for each he/she submits a written report. A research paper is required. NCAA approved

SPORTS LITERATURE - Seminar - Course #160S
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
The course examines the role of sports in literature and America with a view towards understanding its myth and appeal. Students will study novels, short stories, biographies, autobiographies, poems, essays, and films written and directed by men and women. A research paper is required.

FILM/ SHORT STORY - Seminar - Course #166F
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
Film and Short Story is a thematically focused course pairing leading themes in literature with film. Top films, spanning five decades, noted not only for their cinematic advances but also for their indelible stamp on American culture, are combined with literature that threads a compatible stitch in theme and genre. Discussion and assignments evolve from both the literature and films. Vocabulary study is integrated with each reading selection. A research project is required on an author or film director.

AFRICAN AMERICAN LITERATURE - Seminar - Course #182
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
This interdisciplinary course explores the development of African American identity through social, political, economic, regional, and linguistic lenses. Students will engage in both historical and literary analysis, with an emphasis on addressing contemporary issues within the African American community. (This course is linked with its SS Counterpart-African American Participation in Government)
NCAA approved

THEATRE ARTS A: MODERN DRAMA - Seminar - Course #176
(½ Year - ½ Credit) 5 periods weekly
Prerequisite: Successful completion of English 11
Modern Drama trains audiences for contemporary theatre. Through the examination of plays and the possibility of attending performances, students are brought to the awareness that audience plays a crucial and critical role in bringing a play to life. A final research project is required. Beginning with the 2015 – 2016 school year, this course is no longer NCAA approved.
THEATRE ARTS B: PLAY IN PERFORMANCE – Seminar or Elective - Course #176-B
(½ Year - ½ Credit) 5 periods weekly
Offered to grades: 10, 11, 12
NOTE: This course may be taken only once. Students in grades 10, 11, 12 may take this course as an elective.
This highly popular course develops students' skills in theatrical performance. Through improvisation and scene work as well as study of theory and utilization of games and exercises, students explore their potentials as actors, gain poise and self-awareness. Students must keep an Actor’s Journal. Students will take children’s theatre scripts off the page and onto the stage. A final project will require students to perform within the school district a performance complete with costume, lighting, set and sound design. The creation of a study guide for intermediate and middle school teachers is also required.

CREATIVE WRITING - Elective - Course #164
(½ Year - ½ Credit) 5 periods weekly
Recommended for students who are highly motivated and competent writers.
Prerequisite: Successful completion of English 9 and 10
Creative writing is an elective course open to all 11th and 12th grade students. In this course, students explore language as a vehicle of self-expression. It allows the students to experience various forms of writing such as the essay, poetry, short story, children’s story, and one act play as a means of self-expression and awareness. It considers form and style as part of the awareness that varied writing experiences produce. It includes revision, rewriting and self-evaluation. The final examination is a creative writing portfolio, assigned at the beginning of the course. NCAA approved
HEALTH, PHYSICAL EDUCATION AND ATHLETICS

HEALTH DEPARTMENT OBJECTIVES
The New York State Department of Education requires all students to complete one semester of Health Education at the senior high school level in order to meet NYS graduation requirements and receive a diploma.

HEALTH - Grades 10, 11 & 12 - Course # 730, 731
(½ Year - ½ Credit) 5 periods weekly
Offered: Fall and Spring semesters.
Required for Graduation
Health Education is available to students in grades 10, 11 and 12. It is preferred that students take health in grade 10 or 11.

The Huntington High School Health Education course presents a variety of methods for making its content available to the students. Class discussions, motivational games and activities, student presentations, guest speakers and audio-visual aids are all utilized to make this a student centered, positive classroom experience.

Huntington High School offers an extensive health curriculum which includes the following topics:

- Mental Health: Self-Awareness
- Stress and Stress Management
- The Troubled Personality
- Death and Dying
- Chemical Abuse: Drugs, Alcohol, Tobacco
- Nutrition
- Human Sexuality and Family Life
- Sexually Transmitted Diseases including AIDS

PHYSICAL EDUCATION DEPARTMENT OBJECTIVES:
The Physical Education program is designed to meet the needs of each and every student. Each course offering encompasses an individual’s physical, social, emotional and cognitive self. The goal is to promote physical movements as it relates to the whole person and to instill a positive attitude toward fitness and health for a lifetime.

Requirement: The passing of eight (8) semesters of Physical Education (4 years) is required for graduation. The Physical Education grade is included in the GPA and ¼ credit is granted each successful semester for a total of 2 credits for graduation.

PHYSICAL EDUCATION - PE 9
PROJECT ADVENTURE/PERSONAL FITNESS - Course #801F, 802S
The Project Adventure portion of grade 9 physical education aids in the participants’ development of greater self-confidence and at the same time builds a sense of trust and commitment among classmates. The emphasis in this course is on participation and students are encouraged to extend their limits both physically and emotionally. Students are required to participate in all group activities, but may decline to attempt individual challenges that they feel are beyond their personal limits. The low and high element PA courses will be used during this semester. Personal fitness is a core strength and conditioning program. It is a deliberate attempt to optimize a student’s physical competence in each of ten recognized fitness domains: Cardiovascular and Respiratory endurance, Stamina, Strength, Flexibility, Power, Speed, Coordination, Agility, Balance, and Accuracy. This program is developed to enhance an individual’s competency at all physical tasks along with the development of successful diet strategies.
PHYSICAL EDUCATION - PE 10, PE11/12
PERSONAL FITNESS /TEAM AND INDIVIDUAL SPORTS - Course #804F, 805S
Personal fitness is a core strength and conditioning program. It is a deliberate attempt to optimize a student’s physical competence in each of ten recognized fitness domains: Cardiovascular and Respiratory endurance, Stamina, Strength, Flexibility, Power, Speed, Coordination, Agility, Balance, and Accuracy. This program is developed to enhance an individual’s competency at all physical tasks along with the development of successful diet strategies. This conditioning program will take place in all classes but will dominate the 3 day a week PE classes. During the 2 day a week PE classes, students will also participate in skill development, game strategies, socialization, teamwork and cooperation. This will take place during team-oriented classes concentrating on those activities which relate to sports and other large group activities such as; flag football, soccer, volleyball, basketball, floor hockey, badminton, etc. Individual sport activities are also available for students to participate alone or with a minimum number of people such as; tennis, golf, archery, etc.

PHYSICAL EDUCATION
PROJECT ADVENTURE II and III/PERSONAL FITNESS - Course #808F, 809S, 815F, 816S
Project Adventure II is an extension of PA 9 and focuses on further developing a student’s ability to manage their perceived personal limits to accomplish these goals. Students will develop high levels of self-confidence and appreciation for each member of the group, while experiencing challenges. Activities include low and high element challenges on the Project Adventure Course. Written activities are required. Personal fitness will be continued in this program as well.

Project Adventure III is an extension of PA 9 and PA II. It further expands and develops the student into a leader. This course is designed to nourish each individual’s leadership style and his/her ability to communicate, problem solve, and develop interpersonal relationships while participating in many group activities. Activities include low and high element challenges on the Project Adventure Course. Written activities are required. Personal fitness will be continued in this program as well.

ADAPTED/ADAPTIVE PHYSICAL EDUCATION - Course #810F, 811S
Prerequisite: Inclusion only through referral process and departmental approval.
The Adapted/Adaptive program is a comprehensive service delivery system designed to identify and ameliorate problems within the psychomotor domain. Services include psychomotor assessment, individualized educational programming, developmental and/or prescriptive teaching, counseling and coordination of related resources. Services provide optimal physical educational experiences for students who may not safely or successfully engage in unrestricted participation in the activities of the regular physical education program.

SPORTFOLIO/HOME TUTORING
In complying with the Commissioner’s regulations, the department of physical education offers a program to those students that are temporarily or permanently unable to participate in the regular program. Students medically excused from P.E. from one week to one year will participate in written projects pertaining to physical education and interscholastic athletics.
**INTERSCHOLASTIC ATHLETICS**

Our Interscholastic Athletic Program is geared to enhance the skills of students in specialized areas. We are seeking to cultivate and enrich our student’s special talents and skills. The program provides an opportunity for students to compete interscholastically for six years. We will continue to recognize the importance of good academic standing and citizenship. Our staff will motivate our students to be good students and productive citizens in our community. Listed below are the team offerings:

**FALL:**
- Cross Country - Boys
- Cross Country - Girls
- Soccer - Boys
- Soccer - Girls
- Swimming - Girls
- Tennis - Girls
- Football - Boys
- Field Hockey - Girls
- Volleyball - Boys
- Volleyball - Girls
- Golf - Boys

**WINTER:**
- Basketball - Boys
- Basketball - Girls
- Fencing - Boys
- Fencing - Girls
- Swimming - Boys
- Wrestling - Boys
- Track - Boys
- Track - Girls

**SPRING:**
- Baseball - Boys
- Lacrosse - Boys
- Lacrosse - Girls
- Softball - Girls
- Tennis - Boys
- Track - Girls
- Track - Boys
- Crew - Co-ed

---

**National Collegiate Athletic Association (NCAA) Eligibility**

Please be sure to obtain a copy of the High School College Student-Athlete Guide from Guidance.

**NCAA**

**Division I (up to August 1, 2016) * **
Requires 16 core courses:

- 4 years of English
- 3 years of Mathematics (Algebra I or higher)
- 2 years of Natural/Physical Science
  (One must be a lab science)
- 1 year additional of English, Math,
  Natural/Physical Science
- 2 years of Social Sciences
- 4 years of additional core courses

* After August 1, 2016, NCAA will require 10 of the 16 core courses to be completed by the 7th semester and 7 of the 10 core courses must be in English, Math, or Science.

**Division II**
Requires 16 core courses:

- 3 years of English
- 2 years of Mathematics (Algebra I or higher)
- 2 years of Natural/Physical Science
  (One must be a lab science)
- 3 years additional of English, Math,
  Natural/Physical Science
- 2 years of Social Sciences
- 4 years of additional core courses (World Language or any category from above)
MATHEMATICS

DEPARTMENT OBJECTIVES:
The Mathematics Department believes that there is a level of mathematics study available to every student. The mathematics program emphasizes computational skills, problem-solving techniques, and mathematical structure. Students learn skills and concepts, and practice analytical and critical thinking. They study the uses of the computers, statistics and measurement. In addition, algebraic and geometric structure, logic, and analysis provide a sequential program for the college-bound. The decisions made about the courses taken in high school affect each student for the rest of their lives. The teaching faculty, the school counselor, the school administrators, and parents can all advise in the course selection process, but the student should be fully involved in the final decision and be ready to bear the responsibility for that decision. For this reason it is imperative to read course descriptions with considerable thought and care. In selecting your courses for next year, several factors should be considered. These factors include graduation requirements and your job or school plans for the future. All students are required to complete successfully three credits of mathematics and demonstrate a minimum level of proficiency on a New York State exam.

BASIC ALGEBRA - Course # 931
(1 Year - 1 Credit) 5 periods weekly
This course is designed to support special education students. The focus is to build upon the foundation skills required to be successful in the Common Core Algebra 1 Regents course. Topics covered in this course include exploring algebraic expressions, algebraic equations, and functions. Number sense will be reviewed and sustained through the continual practice of identifying and applying the properties of real numbers, simplifying radical terms, exploring rational numbers and expressions, and review of integer operations.

BASIC ALGEBRA - ESL - Course #361
(1 Year - 1 Credit) 5 periods weekly
This course is designed to support English Language Learners. Please see the course description of Basic Algebra.

COMMON CORE ALGEBRA 1 REGENTS - Course #307
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Math 8 or Basic Algebra
The fundamental purpose of this course is to formalize and extend the mathematics that students learned in the middle grades. Because it is built on the middle grades standards, this is a more ambitious version of Algebra I than has generally been offered. This course deepens and extends understanding of linear and exponential relationships by contrasting them with each other and by applying linear models to data that exhibit a linear trend, and students engage in methods for analyzing, solving, and using quadratic functions. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. At the end of this course, students must take the Common Core Algebra 1 Regents. A separate section of this course is offered to English Language Learners in order to provide the necessary support. **NCAA approved**
COMMON CORE ALGEBRA 1 REGENTS SUPPORT - Course #300-9
(1 Year - no Credit) 2 ½ periods weekly
The purpose of this course is to provide AIS to students scoring below proficiency on the grade 8 NYS Math Assessment while preparing them for the Common Core Algebra Regents examination. Students will be given a diagnostic test to assess strengths and weaknesses and then are provided with individual and small group instruction. The course includes a comprehensive review of operations with decimals and fractions, ratio and proportion, percents, elementary algebra and principles of geometry. Problem solving techniques and test taking strategies will be emphasized throughout the course.

COMMON CORE GEOMETRY REGENTS - Course #309
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Common Core Algebra 1 Regents
The fundamental purpose of the course in Geometry is to formalize and extend students’ geometric experiences from the middle grades. Students explore more complex geometric situations and deepen their explanations of geometric relationships, moving towards formal mathematical arguments. Important differences exist between this Geometry course and the historical approach taken in Geometry classes. For example, transformations are emphasized early in this course. Close attention should be paid to the introductory content for the Geometry conceptual category found in the high school CCSS. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. This course culminates in the NYS Common core Geometry Regents examination. NCAA approved

COMMON CORE GEOMETRY HONORS - Course #301
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Common Core Algebra 1 Honors
This course is offered to 9th graders who have demonstrated the ability to handle the rigorous coursework of Integrated Algebra during 8th grade. Please see course description of Geometry. This course culminates in the NYS Geometry Regents examination. NCAA approved

COMMON CORE GEOMETRY CONCEPTS SUPPORT - Course #309C
(I Year - no Credit) 2 ½ periods weekly
Co-requisite: Common Core Geometry Regents
The purpose of this course is to provide support for motivated students who experience difficulty with Integrated Algebra, but who are interested in meeting the requirements for the Regents Diploma with Advanced Designation. In addition to receiving small group and individual instruction, students will be exposed to geometry concepts before they are taught. Emphasis will be placed on formal and informal reasoning skills and the derivation of important geometric facts. Support will be given using technology such as geometer sketch pad and other techniques assisting students in visualizing geometry concepts. A comprehensive review of all geometry topics will be given to help students prepare for the Geometry Regents examination.

ALGEBRA AND TRIGONOMETRY - Course #326
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Common Core Geometry Regents
This course is recommended for students who wish to pursue mathematics due to interest, to provide stronger background for college preparation, or specific career plans in the technical fields of science. This course integrates second year algebra with an introduction to circular and trigonometric functions. Student will take a final exam at the completion of the course. NCAA approved
COMMON CORE ALGEBRA 2 REGENTS - Course #302  
(1 Year - 1 Credit) 5 periods weekly
Prerequisites: Successful completion of Common Core Algebra 1 Regents and Common Core Geometry Regents and teacher recommendation

Within this course, the number system will be extended to include imaginary and complex numbers. The families of functions to be studied will include polynomial, absolute value, radical, trigonometric, exponential, and logarithmic functions. Problems resulting in systems of equations will be solved graphically and algebraically. Algebraic techniques will be developed to facilitate rewriting mathematical expressions into multiple equivalent forms. Data analysis will be extended to include measures of dispersion and the analysis of regression that model functions studied throughout this course. Arithmetic and geometric sequences will be expressed in multiple forms, and arithmetic and geometric series will be evaluated. Binomial experiments will provide the basis for the study of probability theory and the normal probability distribution will be analyzed and used as an approximation for these binomial experiments. Right triangle trigonometry will be expanded to include the investigation of circular functions. This course culminates in the NYS Common Core Algebra 2 Regents examination. NCAA approved

COMMON CORE ALGEBRA 2 HONORS - Course #302A  
(1 Year - 1 Credit) 5 periods weekly
Recommended to grade: 10
Prerequisites: Common Core Geometry Honors and teacher recommendation

This course follows the NYS curriculum for 11th grade mathematics. Topics include complex numbers, applications of trigonometric, logarithmic and exponential functions, rational expressions, equations and inequalities, transformational geometry, probability, statistics, sequences and series. In addition, the course includes advanced work on functions and their graphs, synthetic division and long division (pre-calculus topics) looking at polynomials to find possible roots. This course culminates in the NYS Common Core Algebra 2 Regents examination. NCAA approved

ALGEBRA 2 CONCEPTS SUPPORT - Course #302C  
(1 Year - no Credit) 2 ½ periods weekly
Co-requisite: Common Core Algebra 2 Regents

The purpose of this course is to provide support for motivated students who experience difficulty in geometry, but who are interested in meeting the requirements for the Regents Diploma with Advanced Designation. In addition to receiving small group and individual instruction, students will be exposed to new Algebra 2 and Trigonometry concepts before they are taught. Emphasis will be placed on trigonometric identities. A comprehensive review of all topics will be given to help students prepare for the Common Core Algebra 2 Regents examination.

ADVANCED ALGEBRA - Course #380  
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Algebra and Trigonometry

This course is designed for seniors to sharpen their math skills in preparation for advanced math and pre-calculus courses. Topics in trigonometry and polynomial functions will be covered in this course. The content in this course is organized around functions and models real world situations. Probability and data analysis topics are also interwoven throughout the course. NCAA approved

FINANCIAL ALGEBRA – Course #381  
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Common Core Algebra 1 Regents and Common Core Geometry Regents

Financial Algebra is a college-preparatory course that will use sophisticated mathematics to give students the tools to become a financially responsible young adult. The course employs algebra, pre-calculus, probability and statistics, and geometry to solve financial problems that occur in everyday life. Real world problems in investing, credit, banking, auto insurance, mortgage, and employment, income taxes, budgeting and planning for retirement are solved by applying the relevant mathematics.
PRE-CALCULUS - Course #340
(1 Year - 1 Credit) 5 periods weekly
Recommended for grades: 11, 12
Prerequisite: Common Core Algebra 2 Regents or Common Core Algebra 2 Honors
This curriculum will carry forward the study of functions from Algebra 2 & Trigonometry. It covers polynomial and rational functions, exponential and logarithmic functions, trigonometric functions, vectors and dot products, linear systems and matrices, sequences and series, probability, analytical geometry, parametric equations, polar coordinates and an introduction to limits. NCAA approved

PRE-CALCULUS A/B HONORS - Course #341AB
(1 Year - 1 Credit) 5 periods weekly
Prerequisites: Successful completion of Common Core Algebra 2 Regents or Algebra 2 Honors and teacher recommendation
This course is designed to prepare the student for AP Calculus AB and the course of study met in the sciences or business fields. The function concept plays the unifying role in the study of polynomial, rational, exponential, logarithmic, and trigonometric functions. The modeling of elementary functions is stressed throughout the course along with a basic philosophy of examining the function concept using the Rule of Four. This rule will examine every topic graphically, numerically, analytically, and verbally. In addition, the Way of Archimedes will be implemented, where formal definitions and procedures evolve from the investigation of practical problems. Technological support will be used using a graphing calculator. NCAA approved

PRE-CALCULUS B/C HONORS - Course #341BC
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 11
Prerequisites: Successful completion of Common Core Algebra 2 Regents or Common Core Algebra 2 Honors and teacher recommendation.
This course is designed to prepare the student for AP Calculus B/C. Topics from this course carry forward the study of elementary functions from Algebra 2 and Trigonometry with greater emphasis upon graphic representation and algebraic processes. Polynomials and polynomial equations are extended to equations of higher degree, rational functions are sketched using asymptotes, and an extensive treatment of conic sections is taken expanding the theory to the general cases involving translation of axis, eccentricity and discriminant. Student knowledge of logarithms will be broadened to include natural logarithms. Analytic geometry, polynomial functions, logical functions and complex numbers will be studied as well. The last five units of this course are Calculus topics. NCAA approved

CALCULUS - Course #328
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 12
Prerequisites: Successful completion of Pre-Calculus, Pre-Calculus AB Honors or BC Honors and teacher recommendation.
This course provides an alternative, non-AP calculus course for students who have taken pre-calculus, who have motivation, desire and work ethic necessary to pursue calculus, but who do not wish to do so at an AP level. The course will pursue a limited number of differential calculus topics in depth including limits and continuity, derivatives and the application of derivatives. NCAA approved

ADVANCED PLACEMENT (AP) CALCULUS A/B - Course #350
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 12
Prerequisites: Successful completion of Pre-Calculus AB Honors or BC Honors and teacher recommendation.
This course designed to provide students with a learning experience equivalent to that of a college course in single variable calculus. This course will emphasize a multi-representational approach to calculus with concepts, results, and problems being expressed graphically, numerically, analytically, and verbally. Topics include limits, continuity, differentiation, integration, and applications of these concepts. Students will sit for the Advanced Placement Calculus AB examination in May. Based upon performance, students may receive college credit for one semester of college mathematics. NCAA approved
ADVANCED PLACEMENT (AP) CALCULUS B/C - Course #351
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 12
Prerequisite: Successful completion of Pre-Calculus BC Honors and teacher recommendation. This course is designed to provide students with a learning experience equivalent to that of a full-year college course in single variable calculus. This course will emphasize a multi-representational approach to calculus with concepts, results, and problems being expressed graphically, numerically, analytically, and verbally. Topics include limits, continuity, differentiation integration, polar coordinates, parametric equations, vectors, and infinite series. Students will sit for the Advanced Placement Calculus BC examination in May. Based upon performance, students may receive college credit for one or two semesters of college mathematics. NCAA approved

ADVANCED PLACEMENT (AP) STATISTICS - Course #360
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Common Core Algebra 2 Regents or Pre-Calculus and teacher recommendation. This course is designed to provide students with a learning experience equivalent to that of an introductory college course in statistics. This course provides effective preparation for students interested in the social sciences, health sciences, and business. Students will be introduced to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students will sit for the Advanced Placement Statistics examination in May. NCAA approved
DEPARTMENT OBJECTIVES:
The courses and performing groups of the Music Department are designed to meet the needs, interests and
talents of all senior high school students. The courses present the students with opportunities to study
music from a technical aspect, to learn to understand and appreciate music through listening, and to
develop self-expression through participation in the various instrumental and choral performing groups.

Students who plan to specialize in music or music education as a career are urged to begin theory studies
as early as possible during their high school years. It is also recommended that students specializing in
music should engage in maximum participation in one or more of the music performing organizations.

To fulfill the graduation requirement of one credit in Music, students may take Band, Concert Choir,
Symphony Orchestra, String Orchestra, or Music Theory.

BAND 9/10, 11/12, Competitive and Non-Competitive - Course #640, 640H, 641, 641H
Offered to grades: 9, 10, 11, 12
(1 Year - 1 Credit) 5 periods weekly
Prerequisites: Satisfactory progress in Middle School or by audition.
This course satisfies the one credit in Music required for graduation.
The Band program is a comprehensive program, which includes marching and concert band training and
performances. Students may elect to be in the Competitive Marching Band or the Noncompetitive
Marching Band. The non-competitive members will be required to perform as a pep band for all home
football games including playoffs. These are the performance requirements for the Non-Competitive
Marching program.

Students who wish to participate in the Competitive Marching Band will prepare a field show, which is
performed at a variety of competitions on Long Island and in the northeast region throughout the fall.
Competitive Marching Band members are required to attend two evening rehearsals per week as well as
Saturday and Sunday practices or performances during the first quarter. Competitive Marching Band
students receive a weighted grade for this additional work.

All Band students audition for seating in two concert bands which become the main program activity after
the fall marching season. The Junior Band which consists of members in 9th and 10th grade will
perform levels IV-V music. The Senior Band which consists of members in 11th and 12th grade will
perform levels V-VI music. The Concert Bands will perform at several school concerts and special
functions throughout the year.

The Blue Devil Marching Band has earned national acclaim as one of the finest competitive bands on
Long Island. To date, the band has multiple first place awards in the NY State field band competitions.
In 2004, the Band won first place in the New York State Field Band Conference Competition, Division
LS3 and 2nd Place in the New York City Columbus Day Parade. In 2002, the Band won first place in the
USSBA Mid Atlantic Marching Band Championship. The Blue Devil Band has also performed in the
Tournament of Roses Parade, the Fiesta Bowl Parade, the Miss America Parade, and at Yankee Stadium.
In 1997, they performed in the Disney Hercules Parade in New York City and in 1998, participated in a
Disney commercial for the opening of the Animal Kingdom.
REQUIREMENTS: All members of the Band course are required to participate in either Competitive or Non-Competitive Marching Band and perform in the performances listed above. You may not participate in concert band only. All students have a community service marching commitment.

Exact 2013 rehearsal dates for all new band members as well as summer Band Camp dates and times for Competitive program will be mailed to all grade 8 - 11 band students when available.

IMPORTANT: Students who do not participate in the Summer Band Camp are not eligible for the Competitive Band. For questions about rehearsal and performance requirements, please contact Mr. Giachetti or Mr. Stellato at 673-2053.

CONCERT CHOIR - Course #643
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisite: An interest in singing and a simple voice test.

This course is offered to any student who can match pitches and who will attend rehearsals and concerts. The full high school choir performs at approximately four concerts a year. Study of correct breathing and voice production are also presented. Extra rehearsals are held occasionally throughout the year. (4 to 5 per year). Attendance at extra rehearsals and concerts is mandatory. Students are expected to attend group voice lessons every other week. **This course satisfies the one credit in Music required for graduation.**

CHAMBER CHOIR HONORS - Course #644H
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Membership by audition only.

This is a small select choir comprised of students who have been outstanding members of Concert Choir. The Honors Choir presents concerts in the community as well as joining with the Concert Choir in their concerts. Attendance at all extra rehearsals and concerts is mandatory. Members are expected to attend voice lessons every other week. The Chamber Choir is a NYSSMA level 5 Gold with Distinction performing group and consistently performs at a high level of musicianship. Students are required to learn their own program music as well as the concert choir repertoire. Chamber Choir students receive a weighted grade for their additional commitment.

SYMPHONY ORCHESTRA - Course #646
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 11, 12
Prerequisites: Satisfactory progress in high school string orchestra or NYSSMA 5A+ rating. Open to exceptionally skilled 10th graders with teacher recommendation.

The course includes the study and performances of great masterpieces of orchestral compositions, developing playing skills, and understanding compositional ideas. **This course satisfies the one credit in Music required for graduation.**

There are at least three evening concerts per year, each performance preceded by an evening dress rehearsal. Students are required to be at all concerts and dress rehearsals. Students may also audition for Chamber Orchestra, an advanced string ensemble that rehearses at night.

The Orchestra and Chamber Orchestra consistently receive level 5 and 6 Gold and Silver ratings at NYSSMA Major Organization Festivals. In past years, the Orchestra has won first place awards in Williamsburg and Pennsylvania in competition with orchestras from all over the East Coast.
NOTE: Advanced Orchestra students may be selected to participate in the Honors Orchestra. As a member of Honors Orchestra, students are required to participate in Chamber Orchestra and an Honor String Quartet. These activities require the preparation of a significant amount of additional music as well as participation in numerous community service performances. Participation in Honors Orchestra is by invitation only. Honors Orchestra students receive a weighted grade for this additional commitment.

Orchestra, students are required to participate in Chamber Orchestra and an Honor String Quartet. These activities require the preparation of a significant amount of additional music as well as participation in numerous community service performances. Participation in Honors Orchestra is by invitation only. Honors Orchestra students receive a weighted grade for this additional commitment.

STRING ORCHESTRA - Course #645
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10
This course is for all 9th and 10th grade string students. This orchestra experience includes the study of NYSSMA Level 3-5 string literature. In addition, the Concert Orchestra studies several symphonic orchestra pieces and performs with the Symphony Orchestra. Concert Orchestra performs at least three evening concerts per year, each preceded by an evening dress rehearsal. Students are required to be at all concerts and dress rehearsals. This course satisfies the one credit in Music required for graduation.

MUSIC THEORY - Course #648
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Recommended for students who have an interest in music. No previous music reading experience is required.
Required for: Regents Music Sequence
This course presents a study of basic theory: fundamentals, chords, 4-part composition, dictation, and rhythmic training. It is the first course of a major sequence. This course satisfies the one credit in Music required for graduation.

ADVANCED PLACEMENT (AP) MUSIC THEORY - Course #649
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Recommended for: The music major - 2nd course music major sequence.
Prerequisite: Music Theory I or approval of instructor.
This course presents advanced concepts of music theory and a major concentration of the development of the ear. It is designed to enable the student to understand music theory in depth. It prepares the student for college study of music or for serious music understanding or research. Students will be required to take the Advanced Placement Music Theory Exam at the completion of the course. This is a full year, college level course which receives a weighted grade.

SPECIAL AND HONORS ENSEMBLES:
Membership in all Honors Ensembles is by audition, with priority given to students who are enrolled in one of the High School Major Performance Courses (Band, Orchestra, Choir, or Chamber Choir). Students not enrolled in a performance course may audition only if a seat is available.

A CAPPENDA CHOIR
The A Cappella program is comprised of a Mixed Group and a Women’s Group that perform music of several genres, mainly Pop. The groups perform at several venues throughout the year, including concerts at the High School. Skill in sight-singing is highly desired, as there is no piano used and students must constantly use their musicianship skills. Rehearsals are held two hours a week after school.
**JAZZ ENSEMBLE**
Rehearsals are held one evening per week. All styles of jazz are studied - swing, rock and contemporary. Development of improvisation skills is a priority. Attendance is absolutely mandatory. This honors ensemble is by audition only. Several performances within and outside the district are planned each year. This is a highly selective ensemble.

**WIND ENSEMBLE**
This is an advanced level concert band which performs level VI music. Rehearsals are held one evening per week. Attendance is absolutely mandatory. This honors ensemble is by audition only. The Wind Ensemble will perform at several school concerts and special functions throughout the year.

**ORCHESTRA CHAMBER ENSEMBLE**
Along with the High School Orchestra, there is also a CHAMBER ENSEMBLE, a highly advanced and select group. Membership is by audition or through teacher’s invitation. Rehearsals are held usually on Tuesday evenings from 7:30 to 9:00 p.m. The repertoire is mostly on the college level. Occasionally there are pieces with some wind parts, too. Several performances in and out of school are planned throughout the year.

**WINTER PERCUSSION**
This program is designed to teach students the advanced techniques of concert and marching percussion performance. Rehearsals are held one evening per week, January through June and are open to all students in grades 7-12. Competitive Marching students are required to participate.

**HIGHSTEPPERS DANCE TEAM**
The Highsteppers are a competitive dance team, competing in dance, kickline and pom routines as part of the Scholastic Kickline Association. The team also performs at home football and basketball games. Auditions for Highsteppers take place in the spring. Members may also participate in the Band’s Color Guard, as there are no scheduling conflicts.

**COLOR GUARD/WINTER GUARD**
The Color Guard is an auxiliary unit of the Marching Band, open to both male and female students. The Color Guard performs precision movements with flags, sabers, and wooden rifles, creating a vitally important visual show for the Band’s field and parade competitions. The Color Guard begins training during the summer and performs throughout the fall season. They also perform in several spring parades and rehearse “Winter Guard” techniques during the winter months. Students who have an interest in music or dance are encouraged to audition. Students who are registered for Band may also audition for Color Guard. Auditions take place during the winter months of the previous year. New students may join at this time.

**TRI-M MUSIC HONOR SOCIETY**
This is a service organization. Students must be in 10th, 11th or 12th grades and be an outstanding member of a school music ensemble. This includes membership in one of the extra non-credit music groups. Students must participate in the NYSSMA Festival to be eligible for and maintain membership in Tri-M. Students must attend meetings and perform at least ten hours of service to the Music Department each year. Applications are available from Mrs. Mainville and Mr. Stellato.
READING PROGRAM

Reading remediation is offered to all students who score a 2 or lower on the grade 8 ELA test, or who are in danger of failing the English Regents.

READING 9 - Course #107
(1 Year - no Credit) 5 periods weekly
Based upon performance in the previous year’s English classes, students who would benefit from specific instruction in reading, writing and study skills will also take a period of Reading. This will be offered to help students reach toward the higher standard of the All-Regents High School. Students will take this course in addition to English 9.

READING 10 - Course #108
(1 Year - no Credit) 5 periods weekly
Based upon performance in the previous year’s English classes and end of year reading test for grade 9. This will be offered to help students reach toward the higher standard of the All-Regents High School. Students will take this course in addition to English 10.

READING 11 - Course #109
(1 Year - no Credit) 5 periods weekly
Based upon performance in the previous year’s English classes and end of year reading test for grade 10. This will be offered to help students reach the NYS Regents Standards. Students will take this course in addition to English 11.

FOUNDATIONS (AIS) - Course #116-9, 116-10, 116-11
(1 Year – no Credit) Alternating Days
This course provides academic support for students in grades 9, 10, and 11, who need to meet proficiency in ELA skills and content. The course is designed to enhance skill growth, with a focus on writing, enabling students to achieve on a proficient level on the NYS English Language Arts Regents.

READING AND COMPOSITION – Course #180
(1 Year – 1 Credit)
Reading and Composition is a comprehensive curriculum proven to raise reading achievement and writing skills for struggling readers. Designed to accelerate students reading two or more years below grade level toward literacy independence with rigorous, grade-level text, this approach leverages adaptive technology to individualize instruction and provide powerful data for differentiation. The curriculum is filled with engaging, multimedia content-area text as well as literature.
SCIENCE

DEPARTMENT OBJECTIVES:
Science is part of our everyday lives. If you have ever wondered why a morning is foggy, observed a spider weaving its web, or positioned your beach blanket according to the tides, you have experienced science. Through science classes, we attempt to provide understanding to the science around us. Our courses are aligned with the New York State Standards in the Core areas of Living Environment and the Physical Settings. Freshmen and Sophomores usually take Regents courses in Living Environment and Earth Science. Juniors and Seniors usually take Chemistry and Physics. We encourage talented students to undertake the challenges of AP courses. Science electives are also available for qualified students. Laboratory work is an integral part of all Science courses. Students taking Regents Science courses must meet the New York State requirement of 1200 laboratory minutes followed by satisfactorily submitted lab reports. This is a mandate that must be completed for entrance into each Regents exam.

LIVING ENVIRONMENT REGENTS - Course #422
(1 year - 1 Credit) 7 ½ periods weekly
Offered to grade: 9

Recommended for 9th grade students.
The content of this course follows guidelines provided in the New York State Core Curriculum Guide of Living Environment. Students will investigate basic biological principles and the applications of life processes. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments, followed by written lab reports, as required by the New York State Education Department. Students will be prepared for, and take the Living Environment Regents as the final exam of the course. NCAA approved
BILINGUAL LIVING ENVIRONMENT REGENTS - Course #420
(1 year - 1 Credit) 7 ½ periods weekly
Offered to grade: 9
Recommended for 9th grade students.
This course is designed to support Beginner English Language Learners. The content of this course follows guidelines provided in the New York State Core Curriculum Guide of Living Environment. Students will investigate basic biological principles and the applications of life processes. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments, followed by written lab reports, as required by the New York State Education Department. Students will be prepared for, and take the Living Environment Regents as the final exam of the course. NCAA approved

LIVING ENVIRONMENT SUPPORT - Course #400-9
(1 Year - no Credit) 2 ½ periods weekly
Offered to grade: 9
Recommended for students who achieved Level 1 or 2 on their 8th grade Intermediate Level Science Examination. Also recommended for students needing additional support in science skills to pass the Regents exam.
This course is designed to support students in the content and skill areas of Living Environment. Students will work on topics related to scientific procedure, and develop the skills required to report scientific data. Science content topics covered will be those in the Living Environment Core Curriculum. Students meet every other day in concurrence with an on-going Living Environment class.

LIVING ENVIRONMENT HONORS - Course #423
(1 Year - 1 Credit) 7 ½ periods weekly
Offered to grade: 9
Recommended for 9th grade students with mid-year and final grades of 85 or higher in Earth Science and teacher recommendation.
The content of this course follows guidelines provided in the New York State Core Curriculum Guide of Living Environment, as well as material in the SAT Subject Test in Biology. Students will investigate the content at an in-depth, pre-AP level, and should be able to maintain the pace necessary to provide comprehensive study of core topics. This content will provide the groundwork for more rigorous Advanced Placement work in the field of Biology. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments, followed by written lab reports, as required by the New York State Education Department. Students will be prepared for the Living Environment Regents and the SAT Subject Test in Biology. The final exam for the class consists of the Living Environment Regents exam as well as an in-class examination. NCAA approved

THE PHYSICAL SETTING: EARTH SCIENCE REGENTS - Course #405
(1 Year - 1 Credit) 7 ½ periods weekly
Offered to grade: 10
Recommended for 10th grade students.
The content of this course follows guidelines provided in the New York State Core Curriculum Guide of The Physical Setting: Earth Science. Students will investigate basic geological and environmental principles and the applications of these processes. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments, followed by written lab reports, as required by the New York State Education Department. Students will be prepared for, and take the Physical Setting: Earth Science Regents as the final exam of the course. NCAA approved
THE PHYSICAL SETTING: EARTH SCIENCE - ESL - Course #405ESL
(1 Year - 1 Credit) 7 ½ periods weekly
Offered to grades: 9, 10
Recommended for students in the ESL Intermediate level.
This course is designed to support English Language learners as they investigate basic geological and environmental principles and the applications of these processes. The content of this course follows guidelines provided in the New York State Core Curriculum Guide of The Physical Setting: Earth Science. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments, followed by written lab reports, as required by the New York State Education Department. Students will be prepared for, and take the Physical Setting: Earth Science Regents as the final exam of the course. NCAA approved

THE PHYSICAL SETTING: CHEMISTRY REGENTS - Course #430
(1 Year - 1 Credit) 7 ½ periods weekly
Offered to grades: 10, 11, 12
Prerequisites: Successful completion of Living Environment and Earth Science.
This course is offered to students who have successfully completed both the Living Environment course and The Physical Setting: Earth Science Course. The content of this course follows guidelines provided in the New York State Core Curriculum Guide of the Physical Setting: Chemistry. Students will investigate basic chemical principles and the applications of chemical processes. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments, followed by written lab reports, as required by the New York State Education Department. Students will be prepared for, and take the Physical Setting: Chemistry Regents as the final exam of the course. NCAA approved

THE PHYSICAL SETTING: CHEMISTRY HONORS - Course #432
(1 Year - 1 Credit) 7 ½ periods weekly
Offered to grades: 10, 11, 12
Prerequisites: Recommended mid-year and final grades of 85 or higher in Living Environment, Earth Science and Common Core Algebra and the Regents, and teacher recommendation.
The content of this course follows guidelines provided in the New York State Core Curriculum Guide of The Physical Setting: Chemistry, as well as material in the SAT Subject Test in Chemistry. Students will investigate content at an in-depth, pre-AP level, and should be able to maintain the pace necessary to provide comprehensive study of core topics. This content will provide the groundwork for the more rigorous Advanced Placement Chemistry class. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments, followed by written lab reports, as required by the New York State Education Department. Students will be prepared for the Physical Setting: Chemistry Regents examination as well as the SAT Subject Test in Chemistry. The final exam for the class consists of the Physical Setting: Chemistry Regents exam as well as an in class exam. NCAA approved

THE PHYSICAL SETTING: PHYSICS REGENTS - Course #441
(1 Year - 1 Credit) 7 ½ periods weekly
Offered to grades: 11, 12
Prerequisites: Successful completion of Living Environment and Earth Science or Chemistry, as well as completion or concurrent enrollment in Algebra 2 and Trigonometry or Common Core Algebra 2.
The content of this course follows guidelines provided in the New York State Core Curriculum Guide of The Physical Setting: Physics. Students will investigate basic principles of physics and the applications of physical processes. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments followed by written lab reports, as required by the New York State Education Department. Students will be prepared for, and take the Physical Setting: Physics Regents as the final exam of the course. NCAA approved
THE PHYSICAL SETTING: PHYSICS HONORS - Course #445  
(1 Year - 1 Credit) 7 ½ periods weekly  
Offered to grades: 11, 12  
Prerequisites: Mid-year and/or final grade of 85 or higher in Earth Science or Chemistry and teacher recommendation. Students may be concurrently enrolled in Common Core Algebra 2.  
The content of this course follows guidelines provided in the New York State Core Curriculum Guide of The Physical Setting: Physics course and will prepare them to take AP Physics. Students will investigate content at an in-depth, pre-AP level, and should be able to maintain the pace necessary to provide comprehensive study of core topics. This content will provide the groundwork for more rigorous Advanced Placement work in the field of Physics. Inquiry-based laboratory work is an integral part of the course. Students are required to complete a minimum of 1200 minutes of laboratory assignments followed by written lab reports, as required by the New York State Education Department. The final exam for the class consists of the Physical Setting: Physics Regents Exam as well as an in-class examination. NCAA approved

ADVANCED PLACEMENT (AP) BIOLOGY - Course #429  
(1 Year - 1 Credit) 7 ½ periods weekly  
Offered to grades: 11, 12  
Prerequisites: Successful completion of Living Environment and Chemistry with mid-year and/or final grades of 85 or higher and teacher recommendation.  
This course is designed to be the equivalent of an introductory level college biology course. Students are expected to have a comprehensive understanding of biological principles, cellular dynamics, chemical structures and chemical processes prior to entry into this course. Students are also expected to be self-motivated and capable of independent study and thus be able to meet rigorous academic demands. The course moves at a challenging pace and includes extensive in-depth study of cells and cell chemistry, animal and plant physiology, genetic applications, evolutionary theory and processes, and ecological principles and dynamics. Under College Board AP guidelines, laboratory investigations are an integral part of this course. NCAA approved

ADVANCED PLACEMENT (AP) CHEMISTRY - Course #434  
(1 Year - 1 Credit) 7 ½ periods weekly  
Offered to grades: 11, 12  
Prerequisites: Successful completion of Living Environment, Chemistry and Algebra 2 and Trigonometry courses and Regents exams with an 85 or higher and teacher recommendation. Students may be concurrently enrolled in a Pre-Calculus Honors class.  
This course is designed to be the equivalent of a college introductory chemistry course offered to chemistry majors during the first academic year. Students are expected to have a comprehensive understanding of chemical structures and processes prior to entry into this course. Students are also expected to be self-motivated and capable of independent study, and thus be able to meet rigorous academic demands. The course moves at a challenging pace and includes extensive in-depth study of reaction chemistry, thermodynamics, stoichiometry, nuclear chemistry, and kinetics. Students develop skills in mathematical interpretations of these processes. Under College Board AP guidelines, laboratory investigations are an integral part of this course. NCAA approved
ADVANCED PLACEMENT (AP) ENVIRONMENTAL SCIENCE - Course #421
(1 Year - 1 Credit) 7 ½ periods weekly
Offered to grades: 11, 12
Prerequisites: Successful completion of Living Environment and Earth Science or Chemistry. Recommended mid-year and final grades of 85 or higher in previous science course and teacher recommendation.
This course is designed to be the equivalent of a college introductory environmental science course. It is designed to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving or preventing them. There is a strong laboratory component to the class. NCAA approved

ADVANCED PLACEMENT (AP) PHYSICS 1 - Course #444
(1 Year - 1 Credit) 7 ½ periods weekly
Offered to grades: 11, 12
Prerequisites: Mid-year and/or final grade of 85 or higher in Earth Science or Chemistry and teacher recommendation. Students may be concurrently enrolled in Common Core Algebra 2.
This course is designed to be the equivalent of a college introductory physics course offered to science majors during the first academic semester. Students are expected to be self-motivated and capable of independent study, and thus be able to meet rigorous academic demands. The course moves at a challenging pace and includes extensive in-depth study of one and two dimensional motion, energy, and momentum. The course also includes a brief unit on electricity and optics for students wishing to take the NYS regents Physics exam. Students develop skills in mathematical interpretations of these processes. Under College Board AP guidelines, laboratory investigations are an integral part of this course. NCAA approved

INTRODUCTION TO SCIENCE RESEARCH HONORS - Course #450-9
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
This course revolves around developing and completing a science project to compete in local, state, or national science competitions. Development of real-world skills, such as oral and written communication, statistical analysis, and technology will be a part of the curriculum. Students will be assessed by a portfolio that includes written work, project proposals, research analysis, and log data entry. Students are encouraged to take this course for successive years.

SCIENCE RESEARCH HONORS - Course #450
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Final grade of 65 or higher in Introduction to Science Research.
Students will work with mentors toward completing an Intel project.

ANIMAL BEHAVIOR - Course #452
(½ Year - ½ Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
The characteristic behavior patterns of various groups of animals will be discussed in terms of their biological components, causes, implications and survival value. Among the topics to be investigated will be: animal rights, ethology, innate and acquired behavior, communication among animals and social behavior. Students will be actively participating in laboratory investigations including setting up and maintaining a habitat for live animals. Other activities include reading assignments, lectures, videos and films on animal behavior. Beginning with the 2015 – 2016 school year, this course is no longer NCAA approved.
ENGINEERING DESIGN – Course #461
(1 Year – 1 Credit)
Offered to grades: 11, 12
This introduction to engineering design course will expose students to the design process, research and analysis, team work, and communication methods. This course will help prepare students for a career in the engineering profession. The course uses the “Project Lead the Way” curriculum, and is focused on design techniques. The students use computer-aided design software, and perform research and analysis, as they work in teams on problems with global and human impact. Students will learn problem-solving skills using a design development process.

ASTRONOMY - Course #457
(½ Year - ½ Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisites: Successful completion of Living Environment and Earth Science.
Have you ever wondered about the constellations? What makes a star shine? These and many other questions will be answered in this course. Tools of ancient and modern astronomers will be used and viewed. The characteristics of celestial objects will be studied. The names, locations, and histories of constellations will be studied through the use of slides, charts, star finders and other multimedia resources. The course will also cover the farthest reaches of the known universe to the nearest celestial objects in our own solar system. NCAA approved

FORENSIC SCIENCE - Course #455
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisites: Successful completion of Living Environment and Earth Science or Chemistry.
Crime solving techniques will be studied as well as hands-on laboratory investigations in such areas as fingerprinting, physical evidence, forensic anthropology and forensic serology. NCAA approved

ALLIED HEALTH SCIENCE – Course #462
(1 Year – 1 Credit)
Offered to grades: 11, 12
Health Science Technology familiarizes the student with the multitude of careers in the health care system. Students receive instruction in anatomy, physiology, medical terminology, recognition of vital signs, and employability skills culminating in certification in first aid and cardiopulmonary resuscitation with AED.

ENVIRONMENTAL SCIENCE - Course #431
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisites: Successful completion of Living Environment and Earth Science.
This course stresses basic principles of environmental science, with a strong focus on inquiry based, collaborative problem solving. Topics of study include ecosystems, energy, land, soil and water, pollution, population, biotechnology, waste and environmental ethics. There is a strong laboratory component to the class. NCAA approved

MARINE ECOLOGY - Course #453
(½ Year - ½ Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Successful completion of Living Environment.
A “hands-on” approach will be applied to investigate various ecological relationships in the marine environment. Students will actively participate in various laboratory investigations including setting up and maintaining a marine aquarium, observing marine life and measuring physical aspects of the ocean environment. NCAA approved
SOCIAL STUDIES

DEPARTMENT OBJECTIVES:
As members of an ever-changing world, nation and community, our students have witnessed the hopes and challenges of the modern age. As such, students at Huntington High School need to cultivate deeper understandings of our nation’s role in this world and appreciate their responsibilities in our community.

The primary objective of social studies instruction is to sensitize students to the multiple viewpoints and historical antecedents which explain the events of our day. It is also understood that ‘history is the school of democracy.’ Therefore, learning the past will help inform our students of their responsibility to preserve what is great about our nation and world. It is essential for our students to learn, practice and strengthen critical thinking skills as their teachers guide them to strive toward the ideals of equity and justice upon which our nation was founded. Additionally, New York State has aligned the 2014 frameworks by merging Common Core and Social Studies Standards.

In our core courses and electives, students are constantly exposed to essential questions that permeate time and place. The issues, centering on the human experience, are grounded in a thorough study of the facts by means of analysis and interpretation. Research is also a central component to the four years of social studies courses that all students are required to satisfactorily complete for graduation.

The Regents sections on all four grade levels focus on a high level of understanding of the subject matter and a demanding work load. Such expectations fully prepare the students for the New York State Regents Exams in Social Studies, required in Global History in grade 10 and US History in grade 11.

GLOBAL HISTORY AND GEOGRAPHY 9 REGENTS - Course #212
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Social Studies 8
This is the first of a two-year course of study which will culminate in the Global History Regents exam at the end of the tenth grade. The ninth grade syllabus focuses on Global History eras from ancient times to 1750 A.D. Some of the themes and concepts which are discussed include belief systems, change, culture and intellectual life, economic systems, environment, geography, movement of people and goods, and interdependence. Document analysis is central to the course. Students take a cumulative mid-term and final. NCAA approved
GLOBAL HISTORY AND GEOGRAPHY 9 HONORS - Course #213  
(1 Year - 1 Credit) 5 periods weekly  
Prerequisites: Successful completion of Social Studies 8 with a minimum grade of 90 and recommendation of the eighth grade social studies teacher are required.  
This is the first course in social studies which prepares students for an Advancement Placement level of study in history. The course stresses critical thinking skills, presentation skills, and detailed writing skills. It is intended for students with exceptional ability and interest in history. Grades on Social Studies 8 essays should be 90 or higher on a consistent basis. Writing samples will be taken from class essays in grade 8 as part of the entrance criteria. Students should be willing to give a significant amount of outside study time to meet the demands of this course. A summer reading assignment is strongly encouraged and research projects are also an essential part of the course. A cumulative midterm and final are administered. NCAA approved

GLOBAL HISTORY AND GEOGRAPHY 10 REGENTS - Course #221  
(1 Year - 1 Credit) 5 periods weekly  
Prerequisite: Successful completion of Global History 9R  
This is the second half of the course which began in ninth grade. This course covers Global History from 1750 until the present. The 10th grade course focuses on modern historical eras, and primary source documents. Students will be required to take the Global History Regents which mandates a thematic essay, constructed responses, and a document based historical essay question. A cumulative midterm is administered in January. The mandated Regents exam required at the end of the course will be used as the final exam for the course. NCAA approved

GLOBAL HISTORY SUPPORT (AIS) - Course #200-10  
(1 Year - no Credit) Alternating Days  
This course provides academic support for students in grades 9, and 10, who need to meet proficiency in social studies skills and content. The course is designed to enhance skill growth, with a focus on writing, enabling students to achieve on a proficient level. A thorough exploration of the Global History content will also be a key part of the students’ experience.

GLOBAL HISTORY 9R/10R ESL - Course #260, 270  
(2 Years - 2 Credits) 5 periods weekly and Lab/AB  
Global History 9R/10R ESL is a two-year sequence in Global History, which culminates with the Regents in Global History and Geography. The first year focuses on ancient civilizations, medieval history and early modern times. The second year focuses on modern times, and involves extensive review for the Regents in Global History and Geography, which the students will take at the end of the second year. This course also has a lab on A/B days. NCAA approved

ADVANCED PLACEMENT (AP) WORLD HISTORY - Course #220  
(1 Year - 1 Credit) 5 periods weekly  
Recommended for students of exceptional ability in the Social Studies who are motivated to be involved in a rigorous and demanding investigation of World History.  
Prerequisites: Successful completion of Global History and Geography 9H with a grade of 90 and higher and teacher recommendation.  
The Advanced Placement course in World History is designed to give interested and able students the opportunity to study history in depth. A college textbook is used to provide the background necessary for the student. In addition, the student is required to examine primary and secondary source documents, and explore trends over time and place, as well as conflicting interpretations of history. A full length, AP-style midterm is administered in January. The course will prepare the student to take the Advanced Placement Examination which affords the student the opportunity to receive college credit with a qualifying mark. Students will also be required to take the Global History and Geography Regents as their final exam in the course. A summer reading assignment is strongly encouraged. NCAA approved
UNITED STATES HISTORY AND GOVERNMENT REGENTS - Course #232
(1 Year - 1 Credit) 5 periods weekly
Prerequisite: Successful completion of Global History 10R
This is a survey course and the history of the United States. The emphasis will be on the government of the U.S. and the Constitutional foundations. Further emphasis will be on the United States as a developing industrial and post-industrial nation. Constitutional and legal issues will be explored in depth, as will be the problems of our industrial society in an increasingly complex and technology-oriented world. The essential question: “What is the American Dream and have we fulfilled it as a nation?” is central to the course and allows for interdisciplinary connections with the curriculum in English 11. A cumulative midterm is administered in January. The United States History and Government Regents will be the final exam in the course. NCAA approved

ADVANCED PLACEMENT (AP) UNITED STATES HISTORY - Course #233
(1 Year - 1 Credit) 5 periods weekly
Recommended for students of exceptional ability in the Social Studies who are motivated to be involved in a rigorous and demanding investigation of US History.
Prerequisites: Successful completion of Global History and Geography 10H with a grade of 85 and higher and teacher recommendation, or successful completion of AP World History, or successful completion of Global History and Geography 10R with a grade of 90 and higher in the course, a teacher recommendation and a consistent writing level of 90 and higher.
The Advanced Placement course in American History is designed to give interested and able students the opportunity to study American history in depth. A college textbook is used to provide the background necessary for the student. In addition, the student is required to examine primary and secondary documents, as well as conflicting interpretations of history. A full length, AP-style midterm is administered in January. The course will prepare the student to take the Advanced Placement Examination which affords the student the opportunity to receive college credit with a qualifying mark. Students will also be required to take the United States History and Government Regents as their final exam in the course. A summer reading assignment is strongly encouraged. NCAA approved

PARTICIPATION IN GOVERNMENT - Course #240
(½ Year - ½ Credit) 5 periods weekly
Offered to: Grade 12
This course focuses on the formation of effective public policy. Students are taught skills of decision making, deliberation and problem solving in the context of evaluating real issues confronting the communities in which the students live. Central to this course is the manner in which decisions are arrived through involvement of individuals as participating citizens. Another area studied is how citizen influence can be used in policy making at various levels of government. Emphasis will be on real-world issues that are in line with content standards and course assessments. Students are required to participate in government on the local level by attending and summarizing local government meetings. The course culminates in a major final project wherein students name and frame an issue about which they have a great interest. This course satisfies the 1/2 credit senior mandated requirement in Participation in Government. NCAA approved

ECONOMICS - Course #241
(½ Year - ½ Credit) 5 periods weekly
Offered to: Grade 12
This course will introduce the basic concepts of economic theory to all students. Areas of study include: Introduction to Economics and Economic Systems; elements of the Economy (Microeconomics); understanding the national economy (Macroeconomics); and issues in the US and World Economies. A final exam and several “real-world” projects are part of this course. This course satisfies the ½ credit senior mandated requirement in Economics. NCAA approved
AFRICAN AMERICAN POLITICS - Course #282
(½ Year - ½ Credit) 5 periods weekly
Offered to: Grades 11, 12
Open as elective w/ Chairperson’s Permission
African American Politics is an alternative Participation in Government class, fulfilling the Government credit required for all seniors. A particular focus is on numerous groups of people who needed to struggle to obtain their rights, whether it be socially, economically or politically. Social scientists and historians recognize this struggle for equality as a hallmark of the true American experience, and consequently, in this course patriotism and actual American history will be revealed through the lens of those who may have been victimized, thus striving to change what has been unfair in our system. A significant focus is on how the arms of equality have embraced more and more diverse groups as American history progressed, as in the example of the expansion of the right to vote and hold office. In this Government class, the inner mechanics of American and world politics is explored while simultaneously uncovering the political and social challenges that African Americans and others have been confronted with in their striving for greater equality. This course offers rare opportunities for students to hear from actual Civil Rights activists and local historians to give a greater glimpse into the lives and times of those that helped shape our local and national characters. This is a very interactive class, where discussions take place challenging students to reveal experiences and personal views of the world. This course certainly challenges thinking, promotes investigation, and supports students to plan and react to the political dynamics that have both enabled and crippled true American Democracy. All requirements for Participation in Government apply, including experiencing real politics in action. NCAA approved

ADVANCED PLACEMENT (AP) MICROECONOMICS - Course #248
(1 Year - ½ Credit) Alternating Days
Offered to: Grade 12
Prerequisites: Teacher recommendation and a grade of 85 and higher in AP U.S. History or a grade of 90 in the U.S. History Regents course.
This course includes an introduction to price theory, business structure, the role of government, and international trade Students who enroll in this course must also meet one semester requirement in Participation in Government and must also take the Advanced Placement Exam in Microeconomics in May. It is highly recommended that a student be proficient in mathematical computations to understand the underlying economic principles that are inherit in this course. This course satisfies the ½ credit senior mandated requirement in Economics. NCAA approved

ADVANCED PLACEMENT (AP) U.S. GOVERNMENT AND POLITICS - Course #247
(1 Year - ½ Credit) Alternating Days
Offered to: Grade 12
Prerequisites: Teacher recommendation and a grade of 85 and higher in AP U.S. History or a 90 and higher in the U.S. History Regents course.
AP U.S. Government and Politics examines the following six major areas of study: Constitutional influences on the U.S. Government, political beliefs and behavior; the functioning of political parties, the rules of the three branches of the U.S. Government, public policy, and civil liberties and civil rights. This course offers students an opportunity to achieve college credit and study politics on a more challenging level. The AP Exam on U.S. Government and Politics is to be taken in May. This course does not exempt a student from taking the N.Y.S. mandated course in Economics. This course satisfies the ½ credit senior mandated requirement in Participation in Government. NCAA approved

CRIMINAL JUSTICE - Course #245
(½ Year - ½ Credit) 5 periods weekly
Offered to: Grades 11, 12
The aim of the Criminal Justice course is to give students a thorough understanding of the Criminal Justice system as it operates on the local level. Key units include: felonies and misdemeanors, the principals of criminal law, the role of the police and District Attorney, the role of the judge, the role of the defense attorney and the nature of the criminal court procedure and corrections. Activities in the course include field trips, expert speakers and mock trials, all designed to enhance the students’ appreciation for the adversarial nature of criminal litigation. NCAA approved
PHILOSOPHY - Course #274
(½ Year - ½ Credit) 5 periods weekly
Offered to: Grades 11, 12
This course is an introduction to philosophy. The course will explore areas of Meta physics, Epistemology and Ethics in the western tradition. Readings will be taken from the Justin Gaarder novel “Sophies World”. This course will prepare Huntington High students for a life of self-reflection and critical appraisal of their own environment and life. NCAA approved

PSYCHOLOGY - Course #252
(½ Year - ½ Credit) 5 periods weekly
Offered to: Grades 11, 12
This introductory course will deal with six basic units: learning and conditioning; memory and motivation; the human brain; perception and parapsychology; stages of human development; deviant behavior and therapy techniques. The course will include lectures, experiments, guest speakers, and audio-visual materials. A final exam is given in this course. NCAA approved

AP PSYCHOLOGY - Course #253
Offered to: Grades 11 & 12
(1 Year – 1 Credit) 5 per. Weekly
Recommended for students of exceptional ability in Social Studies.
Prerequisites: Completion of 11th Grade AP US History or 10th grade AP World, or Global 10 Honors with a grade of 85 or better or completion of 11th grade US History Regents with grade of 92 or better and recommendation of guidance counselor, Social Studies teacher AND Chair of Humanities.
This full year Advanced Placement Psychology course is offered to qualified students who wish to complete studies equivalent to an introductory semester college course in psychology. AP Psychology introduces students to the systemic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts and principles, and phenomena associated with each of the major subfields within psychology. They also learn about the ethics and methods psychologists use in their scientific practice. NCAA approved

ASIAN STUDIES - Course #254
(½ Year - ½ Credit) 5 periods weekly
Offered to: Grades 11, 12 (2016-2017)
This course explores the culture and history of Asia, specifically China in the modern world. Foreign and economic relations with the United States will be explored. Cultural differences and similarities between the East and West will be addressed by reading translations of Chinese thinkers including: Confucius, Mencius, and Lao Zi. A college credit option is offered through St. John’s University for a fee and after criteria is met. Additional collegiate level assignments would have to be completed along with all appropriate procedures at St. John’s. Students in this optional program will receive three units of college credit. Application and academic criteria required. NCAA approved

WOMEN’S STUDIES - Course #272
(½ Year - ½ Credit) 5 periods weekly
Offered to: Grades 11, 12
This course will focus on the social history of American women from the time of the first women’s movement to the present with particular emphasis on the last sixty years. The goal of the course is to introduce students to the main historical arguments about American women’s lives, and to also undertake research in primary sources, both documentary and in person, regarding women. This course will include quest speakers and a variety of projects and activities. A college credit option is offered through St. John’s University for a fee and after criteria is met. Additional collegiate level assignments would have to be completed along with all appropriate procedures at St. John’s. Students in this optional program will receive three units of college credit. Application and academic criteria required. NCAA approved
AP HUMAN GEOGRAPHY – Course #249
(1 Year – 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12

Prerequisites: Global 9 Regents with 85 or better or Global 9 Honors
AP Human Geography studies the patterns of phenomena on the earth’s surface, the processes that create those patterns, and the interaction between humans and their environment. The course is designed to introduce students to the systematic study of processes that have shaped human understanding, use, and alteration of Earth’s surface. Students learn to employ spatial concepts and landscape analysis to examine human socioeconomic organization and its environmental consequences. NCAA Approved
SPECIAL PROGRAMS

ALTERNATIVE HIGH SCHOOL PROGRAM
Students who have experienced academic difficulty in the traditional high school setting have an opportunity to take classes they need to make up in the Alternative High School. The Alternative High School is designed to help students work toward fulfilling graduation requirements in a small, more individualized setting. The program meets Monday - Thursday, from 3:00 p.m. to 6:00 p.m. Entrance into the program is based upon approval of the guidance counselor and Director of Guidance.

SPECIAL EDUCATION PROGRAMS

Placement in any special education program is determined by the Committee on Special Education (CSE) based on a student’s academic, social, management, physical needs, and determination of a disability. The CSE recommendations must be reviewed by the Board of Education of our school district prior to any action being taken. Each student’s program is outlined in his or her Individual Education Program (IEP).

CONSULTANT TEACHER PROGRAM
Consultant teacher services allow students with disabilities to stay in full time regular education programs and receive consultation from a special education teacher. This service allows school districts to provide indirect consultation services to pupils with disabilities who are enrolled in a full-time regular education program.

Indirect consultant teacher services provide consultant services to regular education teachers to help them modify the learning environment or instruction to meet the needs of students with disabilities in their classes.

RESOURCE ROOM PROGRAM
A resource program provides specialized supplementary instruction in a small group setting for a minimum of 180 minutes per week. The resource program teacher, in cooperation with classroom teachers, provides specialized instruction to support academic performance in the areas identified on the IEP. The amount of time, the frequency and the type of instruction is indicated on the IEP. Since a resource program is supplemental to the student’s regular or special education program, such instruction is non-credit bearing. Credit is earned only in the classes that offer instruction supplemented by the resource program.

INTEGRATED CO-TEACHING SERVICES
Integrated co-teaching services means the provision of specially designed instruction and academic instruction provided to a group of students with disabilities and non-disabled students. It is a means through which students with IEPs receive some or all of their specialized instruction in the context of the general education classroom.

In this model, two professionals with teaching certification are co-teachers, one general education teacher and one special education teacher. Both professionals participate fully, in the instructional process by providing content and facilitating student engagement and learning.

SPECIAL CLASS PROGRAM
Instruction in the special class parallels instruction that is delivered in the general educating setting. Special class instruction provides core instruction in a setting with students with disabilities. Special classes are available for English, Social Studies, Science, and Math. The curriculum and standards are the same as are provided in the regular education classes but is adapted to meet the individual needs of the students. Special class instruction can be delivered in a 15:1:1 or 12:1+ (3:1 for Life Skills) special class size ratio as determined by the CSE based on the student’s individual needs.
STUDENT ACTIVITIES

A WORLD OF DIFFERENCE (AWOD): Students participate in projects that promote unity among the various ethnic and racial groups at Huntington High School.

AMERICAN VISIONARIES/DREAM CLUB: Membership is exclusively for American Dream and Global Vision Planners. These planners are enrolled within a career development program designed to teach them the art of teaching. Within this club, the planners learn and discuss the latest teaching strategies, and through the instructor they learn how to implement them in a functional and pro-active manner. They learn all current practices, including TRI and Common Core. Members also fundraise for numerous events including raising funds for Holocaust survivor speakers and awards for the winners of major simulations.

ART HONOR SOCIETY: This organization works to inspire and recognize those students who have a profound love of art and/or demonstrate creative talent. Students in the Art Honor Society work to promote art in the school, community and internationally through various activities and service projects. The students help one another to achieve the highest standards and share the importance of art education throughout the district and community.

DEBATE CLUB: Students choose subjects they would like to debate and then research them. Students take both pro and con positions so they are familiar with all the aspects of the topic.

DISPATCH: Huntington High School’s award-winning student newspaper. Students act as reporters, editors, and photographers.

DRAMA CLUB: This club presents three productions a year: a comedy or drama in the fall; PlayFest, a competition of one-act productions, in the winter; and a spring musical.

ENGLISH HONOR SOCIETY: Membership is an honor bestowed on individuals selected for their accomplishments in the field of English and in overall academic achievement. Our members share their love of language and literature with the greater school community, demonstrating their commitment to social responsibility.

ETCETERA: The Huntington High School student literary and art magazine offers students an opportunity to publish their work.

FOREIGN LANGUAGE NATIONAL HONOR SOCIETIES: These clubs honor excellence in the study of French, Spanish, Latin and Italian and serve the community through service and fund-raising.

GAY/STRAIGHT ALLIANCE (GSA): A coalition of gay, lesbian, bisexual, transgender, and heterosexual individuals offering support, acceptance, and awareness in a safe environment. Students may participate in any number of activities to make sexuality, sexual identity, and gender identity an accepted part of Huntington High School.

GRADE LEVEL CLASS LEADERSHIP: Student government/class leadership is an excellent way to get involved in the Huntington community. Students who participate in their class government help to plan major events such as a homecoming, float night and the prom, in addition to smaller fundraisers throughout the year. Class leaders are responsible for motivating the members of their class and the entire student body to participate in school sponsored events.

GRANDFRIENDS: Students, after completing a five-week training program, visit senior citizens at home.

HABITAT FOR HUMANITY: The students work together with other Suffolk schools to provide simple and decent housing for Suffolk County families. They are responsible for raising awareness, raising funds to build the house and raising the walls of a house.

HISTORY DAY CLUB: Students explore issues affecting society ranging from animal rights to their roles and responsibilities as citizens in our society.

HIGHTHEPPERS: Members strive to increase guard, kick and dance skills, and do some choreography.

HUNTINGTON HIGH SCHOOL YEARBOOK: The Huntingtonian captures in photos our life at Huntington High School. Sports, clubs, and special events are included.

KEY CLUB: This is a school and community service club affiliated with Kiwanis. Twice yearly students work toward generating interest in helping increase blood donations (through two blood drives) from within the high school community.

MATH HONOR SOCIETY: Mu Alpha Theta - Students work with other students as peer tutors to help them successfully complete Regents level math classes.
MATHLETES: Students practice math puzzles and problem-solving techniques to compete with other schools.

NATIONAL HONOR SOCIETY: Activities include tutoring and performing community service. Huntington High School is privileged to have a chapter of the National Honor Society. Membership in the National Honor Society is granted on the basis of faculty selection and such membership is conferred upon those students who have distinguished themselves by being outstanding in the areas of Scholarship, Service, Leadership and Character. The National Chapter’s selection guides define these criteria as follows:

Scholarship: Any student who has completed at least sophomore year and has a cumulative grade point average of 90% or better.
Service: Service is defined in terms of performance. Valid questions are: What contributions has this candidate made to the school, community and classmates?
Leadership: The leadership criterion is regarded as highly important for membership selection. Schools may consider leadership roles in both school and community. Leadership may include elected positions, contributions made in the classroom, or positive cooperative behavior in the school situation which would set a good example for other students to follow.
Character: Integrity: No recorded incidents of cheating or of intentional dishonesty. Positive behavior: No record of knowingly violating school regulations. No record of civil offenses within the community. Willing to assist classmates, faculty members, etc. Ethics: Wants to do the “right” thing in most situations.

Students who are interested in becoming members of National Honor Society must contact Mr. Cohen. They will receive complete details to see if they meet the academic requirement. Once this criterion has been met, the student is invited to complete an information packet. Packets will be distributed and the selection process will be explained at a meeting held in October. Attendance is mandatory for all perspective applicants. Students will be notified by mail as to the decision of the Faculty Council.

NATURAL HELPERS: Students who advise others are supported through this club.

READY STEP: Students compete against other districts in step (dance) competition.

ROBOTICS CLUB: Members will have an opportunity to learn teamwork, engineering, programing, problem solving and critical thinking skills all while having fun. Students learn important STEM* (Science, Technology, Engineering, and Math) concepts that can help them throughout their academic and professional careers. Team members will use various tools to build robots and machines, program them to perform specific tasks, troubleshoot problems, and refine their strategies to address practical challenges.

SCIENCE NATIONAL HONOR SOCIETY: This organization encourages and recognizes scientific and intellectual thought, advance student knowledge of civic community to encourage a dedication to the pursuit of scientific knowledge that benefits all humankind. Membership is open to all Juniors and Seniors who are currently enrolled in a Regents level or higher course and have completed 2 years of Regents level or higher science. Students must have a minimum science average of 90%, an overall scholastic average of at least 85%, and a minimum math average of 80%. Students must be enrolled in a science course while they are members of the society.

SCIENCE RESEARCH: Students who enjoy solving novel science projects enter interscholastic competitions.

SOCIAL STUDIES HONOR SOCIETY: This organization will work to honor successes in, dedication to, and passion for the study of History. Members will play a role in local preservation, engage in charitable works, highlight success in Social Studies and provide the community and students opportunities to engage in history and current affairs.

STAGE CREW: Students participate in behind-the-scene work with the Drama Club and community productions and concerts.

STUDENT GOVERNMENT: This organization assists in the management of the school, providing a forum for student voice.

TRI-M MUSIC HONOR SOCIETY: Service group for the Music Department.

UNITED AMIGOS: This is a club of dedicated, multicultural students who take pride in assisting the ESL pupils to achieve success at Huntington High School. These students provide mentoring, social and tutoring services to anyone in need.
WILSON TECH

CAREER AND TECHNICAL EDUCATION

The Huntington Public Schools, in cooperation with Wilson Tech of the Board of Cooperative Educational Services (BOCES), offers Career and Technical Education programs designed to prepare students for gainful employment and post-secondary education. These program areas are divided into the career clusters noted below. A range of programs are also available in a smaller class size setting.

Students may begin a two-year program starting in their junior year.

A student enrolled in the CTE program can receive up to 4 credits for each year. Therefore, a student enrolled in a two-year program may receive up to a total of 8 credits. A certificate of completion is awarded to students who pass their technical classes and meet the attendance criteria. Students may also be eligible to obtain a two year technical endorsement seal by passing a national exam in their chosen field.

The courses listed below are available to students at the following campuses: Dix Hills, Republic Airport, Northport, Huntington and Thomas School of Horsemanship. Transportation is provided. Students report to one of these centers for a half day, either in the A.M. or P.M. session and attend HHS for the remaining part of the day for their other subjects. Sessions are assigned per availability and courses scheduled at Huntington High School. Please refer to the first section of this Guide for graduation requirements for ALL students.

COURSE OFFERINGS

WILSON TECH – A.M. SESSION (Periods 1 - 5)
WILSON TECH – P.M. SESSION (Periods 6 - 9)

CONSTRUCTION CAREERS
Architectural Design/CAD
Carpentry
Construction Electricity
Heating/Ventilation/Air Conditioning
Welding

GRAPHICS & MEDIA CAREERS
Advertising/Graphic Design
Audio Production
Digital Film & Video Production
Professional Photography

HEALTH CAREERS
Medical Assisting
Medical Laboratory
Nurse Assisting
Physical Therapy Aide
Professional Health Careers (Prerequisite: Nurse Assisting)

SERVICE CAREERS
Certified Personal Trainer
Cosmetology
Criminal Justice
Culinary Arts
Early Childhood Education
Equine Studies
Fashion Merchandising/Design
Veterinary Assisting

TECHNICAL CAREERS
Computer and Business Skills
Computer Networking (Prerequisite: Electronics/Robotics/Computer Repair)
Electronics/Robotics/Computer Repair

TRANSPORTATION CAREERS
Aircraft Technology
Auto Body Repair
Automotive Technology
Aviation Science/Flight
Marine & Motor Sports Technology
**SMALLER CLASS SIZE PROGRAMS:** For students with special needs, who require a more personalized, structured learning environment.

- Auto Maintenance
- Building & Grounds/Maintenance
- Crosswalk to Tech
- Electronic Manufacturing
- Food Services
- Salon Services
- Health Care Skills
- Life Skills
- Office Skills
- Printing/Computer Graphics
- Retailing

**TRANSPORTATION:** All students must travel from the high school to the Wilson Tech centers via the bus transportation provided. Those students in the A.M. session will be bused to the center at approximately 7:25 a.m. and return at 11:00 a.m. The P.M. session students will leave our school at 11:25 a.m. and return at 3:00 p.m. Students are NOT permitted to drive their cars to the Wilson Tech centers without special permission from their parents, and the Wilson Tech and high school administration. Permission will only be granted for special circumstances and only with prior approval. Under no circumstances may a student carpool with another student. A Wilson Tech student with a senior class D license is eligible to apply for a student parking pass. The application for this pass must be signed by the home school administration and parent/guardian.

**JOB PLACEMENT:** Wilson Tech Job Placement office provides lifetime job search strategies. A job bank is updated on a weekly basis.

**COLLEGE PLACEMENT:** Wilson Tech students receive information on two and four year colleges and information about continuing in their occupational specialty on a post-high school level. The College Counselor at Huntington High School, in cooperation with the guidance staff at Wilson Tech, works to facilitate finding the best college to meet individual needs. Advanced standing may be available at select colleges.
DEPARTMENT OBJECTIVES:
The Huntington Union Free School District is committed to implementing the New York State LOTE (Languages Other Than English) standards. The two standards are communication and culture. By studying a language other than English, students learn how to communicate in another language and begin to understand and appreciate the similarities and differences between themselves and the people who speak the targeted language.

The New York State Board of Regents has eliminated the LOTE Regents Examinations in all languages, but has approved an amendment to CR 100.5 to allow students to meet the Regents assessment requirements by passing a locally developed examination. Huntington, as part of a LI Consortium, has developed such an exam. This exam offers our students the opportunity to continue to meet the Regents assessment requirements related to earning a Regents diploma with advanced designation in any of the four languages that are offered in the district. The new test is now called FLB. The new locally developed test that replaces the proficiency exam is now called FLA.

The study of four languages French, Italian, Latin and Spanish starts in sixth grade when students are offered the FLEX (Foreign Language Exploratory) program. At the middle school level students receive one high school credit upon successful completion of Checkpoint A in eighth grade, after taking and passing the FLA exam. At the high school level, the students can receive up to four more credits in World Language after successful completion of Checkpoints B and C. Each Checkpoint covers similar topics, grammatical structures, and cultural information, but spirals into a more comprehensive practice every year. Students who wish to obtain a Regents Diploma with Advanced Designation must complete a three-year world language sequence (Checkpoint B) and pass the FLB exam.

Students continue the study of world languages at the Checkpoint C level in French, Italian, Latin and Spanish. In these advanced courses, students have the opportunity to take AP courses in French, Italian, Latin and Spanish. At the same time, they can obtain college credit by taking the world language college course and by paying a fee of $300 per semester to Adelphi University.

Each year high-performing students are inducted in the National French, Italian, Latin and Spanish Honor Societies. This year students will be inducted in the Latin Honor Society. Through the National Honor Societies, students are exposed to the cultural aspects of the languages they study and have the opportunity to participate in community service activities.

59
CHINESE I - Course # 565  
(1 Year - 1 Credit) 1 period weekly  
Offered to grades: 11, 12  
Prerequisite: Completion of another world language sequence.  
This is an intensive introductory course that includes conversation in Mandarin Chinese as well as an introduction to the first 500 characters. Speaking and listening skills will be studied with a concentration on correct use of tones and patterned sentences. Reading and writing will be introduced in the 1st half of the year, and stroke order and use of radicals will be emphasized in the latter part of the year. The study of Chinese requires a strenuous exercise of memory skills; practice and drill is essential. Students opting to take this course should have already completed their world language sequence.

FRENCH II - Course #509  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 9, 10, 11, 12  
Prerequisites: French I and successful completion of the FLA.  
This is the first half of Checkpoint B. A continuation of the Middle School course with continued practice in listening and speaking and with more emphasis on reading and writing. Aspects of French culture will also be taught. Students will take a midterm exam in January and a final exam in June. NCAA approved

FRENCH III - Course #510  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisite: Successful completion of French II.  
This is the second half of Checkpoint B. Students are brought beyond the basic listening, speaking, reading and writing skills that they have strengthened during the preliminary levels of instruction. Grammar concepts become more intense. Proper sentence structure and more descriptive vocabulary are encouraged. Through the use of appropriate district adopted French materials, supplementary materials, and adherence to the NYS LOTE Standards, the students will be well prepared and will achieve the level of mastery necessary to perform appropriately in the FLB in June. Students take a midterm exam and the FLB as the final exam in June. NCAA approved

FRENCH III HONORS - Course #510H  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisites: Successful completion of French II with a final grade of 90 and teacher recommendation.  
This is the second half of Checkpoint B. The students will learn the French III curriculum described in the French II course, but the Honors level requires them to accomplish more complex readings and more extensive writings. Students take a midterm exam and the FLB as the final exam. NCAA approved

FRENCH IV/V Regents and Honors - Course #513, 513H, 515, 515H  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 11, 12  
Prerequisites: Successful completion of French III Honors Level: A final grade of 85 in French III Honors or 90 in French III with teacher recommendation.  
This is a Checkpoint C course that will help students to further develop the skills of listening, speaking, reading and writing, with special emphasis on the development of conversational competence. Through the use of short stories, poetry, and selections from authentic French literature the students will broaden their knowledge and appreciation of French culture. Students will be able to augment their vocabulary through their study of literature and art. Students will review and expand the knowledge of previously learned grammatical structures. The curriculum has been approved by Adelphi University; therefore students can obtain up to 6 college credits, 3 credits per semester. The fee of $300.00 per semester is payable to Adelphi University. Students take a midterm exam in January and a final exam in June. NCAA approved
ADVANCED PLACEMENT (AP) FRENCH LANGUAGE - Course #517  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 12  
Prerequisites: Successful completion of French IV with a final grade of 90 at the Regents level or 85 at the Honors level with teacher recommendation.  
This course focuses on communication and is designed to offer students the opportunity to demonstrate their skills and abilities in the Interpersonal, Interpretive and Presentational modes of communication. In Interpersonal Communication, the students engage in conversations, express ideas, and exchange opinions using both spoken and written French. In Interpretive Communication, the students understand and interpret written and spoken French on a variety of topics. In Presentational Communication, the students present information and ideas using spoken and written French to an audience. This course also encourages cultural awareness and incorporates themes; the students will develop and understanding and appreciation of various aspects of the cultures of the French-speaking world and some of the themes introduced are Global Challenges, Contemporary Life, Personal and Public Identities, Families and Communities, etc. Students are required to pay and take the AP French exam in May.  

ITALIAN II - Course #519  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 9, 10, 11, 12  
Prerequisite: Italian I and successful completion of the FLA.  
This is the first half of Checkpoint B. A continuation of the Middle School course with continued practice in listening and speaking and with more emphasis on reading and writing. Students will take a midterm exam in January and a final exam in June.  

ITALIAN III - Course #520  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisite: Successful completion of French II.  
This is the second half of Checkpoint B. Students in this course will build further upon the listening, speaking, reading and writing skills acquired in the first two levels in order to be able to read complex situations. Students will learn to improve “survival skills” in the culture where the second language is spoken. Students will take a midterm exam in January and the FLB exam in June as the final exam.  

ITALIAN III HONORS - Course #520H  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisites: Successful completion of Italian II with a final grade of 90 or higher and teacher recommendation.  
This is the second half of Checkpoint B. The students will cover the Italian III curriculum. In addition, they will do short readings of Italian literature and will be responsible for writing reports. Students will take a midterm exam in January and the FLB exam in June as the final exam.  

ITALIAN IV/V Regents and Honors - Course #524, 524H, 526, 526H  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 11, 12  
Prerequisites: Successful completion of Italian III /Honors Level: A final grade of 85 in Italian III Honors or 90 in Italian III with teacher recommendation.  
This course will help students to further develop the skills of listening, speaking, contemporary reading and writing, with special emphasis on the development of conversational competence. Through the use of short stories, poetry, selections from authentic Italian literature and virtual visits to Italian museums, the students will broaden their knowledge and appreciation of Italian culture. Students will be able to augment their vocabulary through their study of literature and art. They will learn more advanced grammatical structures as they improve their speaking skills. They will develop vocabulary and expressions based on the topics. Use of the computer lab, both for research and projects, is an essential part of this course. The curriculum has been approved by Adelphi University; therefore students can obtain up to 6 college credits, 3 credits per semester. The fee of $300.00 per semester is payable to Adelphi University. Students take a midterm exam in January and a final in June.
ADVANCED PLACEMENT (AP) ITALIAN LANGUAGE - Course #527
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 12
Prerequisites: Successful completion of Italian IV with a final grade of 90 at the Regents level or 85 at the Honors level with teacher recommendation.
This course is designed to offer the students the opportunity to demonstrate competence in all four language skills (reading, writing, listening and speaking) in accordance with AP guidelines. These skills will be used in various activities and disciplines rather than to cover any specific body of subject matter. Course content reflects interests shared by the teachers and students (the arts, current events, literature, sports, etc). Students will be expected to do extensive amount of independent reading and writing and demonstrate excellent oral and listening skills. The course emphasizes the use of language for active communication and helps students develop the ability to comprehend formal and informal spoken Italian; the acquisition of vocabulary and a grasp of structure to allow the easy, accurate reading of newspaper and magazine articles, as well as the modern literature in Italian; the ability to compose expository passages; and the ability to express ideas orally with accuracy and fluency. The students take the AP test offered by the College Board in May. NCAA approved

LATIN II - Course #553
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisites: Successful completion of Latin I and the FLA.
This course is the first half of Checkpoint B and is presented with an emphasis on grammar. Students in this course will continue the study of the Latin language and heritage. After a review of the vocabulary and structures of Latin I, students will acquire increased knowledge of Latin grammar, and correspondingly increase knowledge of English grammar through the direct study of bases, prefixes, suffixes, and derivatives. They will also begin to read texts from various authors, such as Pliny, Plateaus, Ovid, etc., and will learn more about the influence of Roman civilization on the modern world, particularly in the areas of literature and government. There is selective participation in the Latin National Exam Level II, the Latin Declamatio, and the second level Certamen at Stony Brook University.
This course is strongly recommended for students pursuing the FLB and the Sciences, Medicine, Pre-Law and the Arts & Humanities in college. Students will take a midterm exam in January and a final exam in June. NCAA approved

LATIN III - Course #554
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Successful completion of Latin II
The study of Latin language and literature continues. Attention is focused on the ways Latin has entered English and influenced English linguistically and culturally. With Latin, reading takes priority. Listening and speaking skills in Latin are generally limited to reading aloud, repeating, answering questions and oral interpretation of text. At this level, the students read with general and specific comprehension adapted Latin authors and Latin prose authors; use conversational and formal English and write English that incorporates Latin elements “prefixes, bases and suffixes”. The cultural information discussed in the two previous years is expanded this year: Roman baths, sports, the Games, the Coliseum, Art, Geography, Roman weddings, Roman religion and Roman Funeral, Slaves and the Late Roman Empire. There is selective participation in the Latin National Exam Level III, the Latin Declamatio, and the third level Certamen at Stony Brook University. This course is strongly recommended for students pursuing the FLB and the Sciences, Medicine, Pre-Law and the Arts & Humanities in college. Students will take a midterm exam in January and the FLB exam in June as the final exam. NCAA approved
LATIN III HONORS - Course #554H  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisites: Successful completion of Latin II with a final grade of 90 or higher with teacher recommendation.  
This is the second half of Checkpoint B. The students will learn the Latin III curriculum described in the Latin III course description, but as students at the Honors level, they will be required to accomplish more complex readings and more extensive translations. There is selective participation in the Latin National Exam Level III, the Latin Declamatio, and the third level Certamen at Stony Brook University. In addition, they will do additional readings in Latin and will be responsible for writing reports. This course is strongly recommended for students pursuing the FLB and the Sciences, Medicine, Pre-Law and the Arts & Humanities in college. **Students take a midterm and the FLB exam as the final exam.**  
NCAA approved

LATIN IV - Course #555  
(1Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisite: Successful completion of Latin III.  
This is the first half of Checkpoint C. The students will understand and read short unadapted passages of Latin with appropriate assistance, demonstrate reading comprehension by interpreting the meaning of the passages they read. Students will demonstrate knowledge of vocabulary and syntax appropriate to their level; they will also read Latin aloud and respond appropriately to questions, statements, or commands. Students will write phrases and sentences in Latin through dictation. They will demonstrate knowledge of the daily life and thought of the ancient Romans, gained through the Latin texts they read. There is selective participation in the Latin National Exam Level IV, the Latin Declamatio, and the fourth level Certamen at Stony Brook University. This course is strongly recommended for students pursuing the Sciences, Medicine, Pre-Law and the Arts & Humanities in college. **Students take a midterm and a final exam in June.** NCAA approved

LATIN IV HONORS - Course #555H  
(1Year - 1 Credit) 5 periods weekly  
Offered to grades: 10, 11, 12  
Prerequisites: Successful completion of Latin III Honors/Regents, with a final grade of 85 in Latin III Honors or 90 in Latin III Regents and teacher recommendation.  
This is the first half of Checkpoint C. The students will learn the Latin IV curriculum described in the Latin IV course description, but as students at the Honors level, they will be required to accomplish more complex readings and more extensive translations. There is selective participation in the Latin National Exam Level IV, the Latin Declamatio, and the fourth level Certamen at Stony Brook University. This course is strongly recommended for students pursuing the Sciences, Medicine, Pre-Law and the Arts & Humanities in college. **Students take a midterm and a final exam in June.** NCAA approved

LATIN V- Course #556  
(1 Year - 1 Credit) 5 periods weekly  
Offered to grade: 12  
Prerequisite: Successful completion of Latin IV.  
This is the final course offered in the World Language sequence or second half of Checkpoint C. Students in Latin V are expected to demonstrate more ease and originality in the language. The students in Latin V will read several original Latin literary works throughout the year, and write essays related to the readings, which develop into the portfolio upon which part of the final assessment is based. **Students take a midterm exam in January and final in June.** NCAA approved
LATIN V HONORS - Course #556H
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 12
Prerequisites: Successful completion of Latin IV, Latin IV Honors: A final grade of 90 in Latin IV or 85 in Latin IV Honors with teacher recommendation.
This is the final course offered in the World Language sequence or second half of Checkpoint C. Students in Latin VH are expected to demonstrate more ease and originality in the language. The students will read several original Latin literary works throughout the year, and write essays related to the readings, which develop into the portfolio upon which part of the final assessment is based. Students at the Honors level will read longer passages and their writing assignments will be more extensive. *Students take a midterm exam in January and final in June. NCAA approved*

ADVANCED PLACEMENT (AP) LATIN - Course #557
(1 Year - 1 Credit) 5 periods weekly
Offered to grade: 12
Prerequisites: Successful completion of Latin IV, Latin IV Honors: A final grade of 90 in Latin IV or 85 in Latin IV Honors with teacher recommendation.
The AP guideline will be the norm in this course. The AP Latin course promotes reading Latin poetry and prose with historical and literary sensitivity. Students develop linguistic skills by engaging in multiple activities, including translating poetry and prose from the required reading list. AP Latin is roughly equivalent to an upper-intermediate college or university course. Students are expected to understand not only the broad strokes of a piece of literature but also the finer details. They are expected to be able to contextualize that literature in light of genre, ancient history, and culture. They become careful and critical evaluators of information, and they learn to connect their new understandings to their own lives and to the world. In so doing, they become young adults ready not only for college but also for their responsibilities as citizens of an increasingly interconnected society. *NCAA approved*

SPANISH I - Course #541
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisite: This course is offered to students who have not met the Checkpoint A requirement in Middle School.
This course covers subject matter that is presented at the MS level. Reading, writing, listening, and speaking are emphasized for a more comprehensive understanding of Spanish. There is an expansion of vocabulary as well as an introduction of culture. Short stories, articles, and complementary materials in Spanish are introduced. *Students will take a midterm in January and a final exam at the end of the year. NCAA approved*

SPANISH II - Course #529
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisites: Spanish I and successful completion of the FLA.
First half of Checkpoint B. A continuation of the Middle School course with continued practice in listening and speaking with more emphasis on reading and writing. Aspects of Spanish culture will also be taught. *Students will take a midterm exam in January and a final exam in June. NCAA approved*

SPANISH FOR NATIVE SPEAKERS II - Course #543
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
This course is designed for students whose native language is Spanish and is equivalent to Spanish II. Students will familiarize themselves with Spanish literature by reading titles from Spanish authors. Reading and writing skills will be emphasized; these improved skills will enhance their already well-developed oral proficiency of the language. *Students will take a midterm exam in January and a final exam in June. NCAA approved*
SPANISH III - Course #530
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Successful completion of Spanish II
Second half of Checkpoint B. Emphasis on using listening, speaking, reading and writing skills in more complex situations. Students will learn to improve “survival skills” in the culture where the second language is spoken. **Students will take a midterm exam in January and the FLB exam in June as the final exam. NCAA approved**

SPANISH III HONORS - Course #530H
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisites: Successful completion of Spanish II with a final grade of 90 or higher and teacher recommendation.
Second half of Checkpoint B. The first half of the year, the course will cover the Spanish III curriculum at an accelerated pace. The second half of the year will be devoted to the practical use of Spanish in different settings. Emphasis is placed on speaking, but students will do reading and writing as well. **Students will take a midterm exam in January and the FLB exam in June as final exam. NCAA approved**

SPANISH FOR NATIVE SPEAKERS III - Course #544
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Regents and Honors
Prerequisites: Successful completion of Spanish for Natives II with a final grade of 85 or higher and teacher recommendation.
This course is designed for students whose native language is Spanish and is equivalent to Spanish III. Students will familiarize themselves with Spanish literature by reading titles from Spanish authors. Reading and writing skills will be emphasized; these improved skills will enhance their already well-developed oral proficiency of the language. **Students will take a midterm exam in January and the FLB exam in June as the final exam. NCAA approved**

SPANISH FOR NATIVE SPEAKERS III HONORS - Course #544H
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisites: Successful completion of Spanish for Natives II with a final grade of 90 or higher and teacher recommendation.
The students will learn the curriculum described in the Spanish for Native Speakers III course, but the Honors level requires them to accomplish more complex readings and more extensive writings. **Students will take a midterm exam and the FLB as the final exam. NCAA approved**

SPANISH IV - Course #531
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisite: Successful completion of Spanish III.
This is the first half of Checkpoint C. Students will cover the Spanish IV curriculum. In addition, they will do work on Spanish literature and writing reports. **Students will take a mid-term exam in January and a final exam in June. NCAA approved**

SPANISH IV HONORS - Course #531H
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 9, 10, 11, 12
Prerequisites: Successful completion of Spanish III Regents/Honors level. A final grade of 85 in Spanish III Honors or 90 in Spanish III R and teacher recommendation.
This is the first half of Checkpoint C. Students will cover the Spanish IV curriculum. In addition, they will do extensive readings of Spanish literature and will be responsible for writing several reports. This curriculum has been approved by Adelphi University; therefore students can obtain up to 6 college credits, 3 credits per semester. The fee of $300.00 per semester is payable to Adelphi University. **Students will take a midterm exam in January and a final exam in June. NCAA approved**
SPANISH V - Course #532
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Successful completion of Spanish IV.
This is the second half of Checkpoint C. Students will cover the Spanish V curriculum. Students will be doing readings of Spanish literature and writing reports. Students will take a midterm exam in January and a final exam in June. NCAA approved

SPANISH V HONORS - Course #532H
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 10, 11, 12
Prerequisite: Successful completion of Spanish IV Honors/Regents level: A final grade of 85 in Spanish IV Honors or 90 in Spanish IV Regents and teacher recommendation.
Advanced study of Spanish language and literature. In addition, students will do extensive readings and will be responsible for writing several reports. Students may obtain both high school and college credit. The curriculum has been approved by Adelphi University; therefore students can obtain up to 6 college credits, 3 credits per semester. The fee of $300.00 per semester is payable to Adelphi University. Students will take a midterm exam in January and a final exam in June. NCAA approved

ADVANCED PLACEMENT (AP) SPANISH LANGUAGE - Course #534
(1 Year - 1 Credit) 5 periods weekly
Offered to grades: 11, 12
Prerequisite: Successful completion of Spanish IV Honors/College with a final grade of 85 with teacher recommendation.
This course is designed to offer the students the opportunity to demonstrate competence in all four language skills (reading, writing, listening and speaking). These skills will be used in various activities and disciplines rather than to cover any specific body of subject matter. Course content reflects interests shared by the teachers and students. Students will be expected to do extensive amount of independent reading and writing and demonstrate excellent oral and listening skills. The course emphasizes the use of language for active communication and helps students develop the ability to comprehend formal and informal spoken Spanish; the acquisition of vocabulary and a grasp of structure to allow the easy, accurate reading of newspaper and magazine articles, as well as the modern literature in Spanish; The ability to compose expository passages; and the ability to express ideas orally with accuracy and fluency. The students will take the AP test offered by the College Board in May. NCAA approved
NOTE: Advanced Placement (AP) courses are noted in BOLD print. Honors (H) and Advanced Placement (AP) courses have specific requirements and may require a teacher recommendation. Please check with your current subject teacher, guidance counselor, or department supervisor when selecting courses.
