Dear Parents and Guardians,

This letter is to inform you that the district has conducted water sampling and lead testing over the past several weeks.

Samples were taken from nearly 200 locations across the district, which includes any and all sources of potable water. The threshold for acceptable lead levels is 5 parts per billion. Any locations where samples initially tested at or above the threshold were addressed immediately by taking the source offline and/or proper signage.

Please be advised that the district will implement a remediation plan and conduct follow-up testing in the coming weeks.

Sincerely,

A handwritten signature in blue ink that reads "Beth McCoy". The signature is written in a cursive, flowing style.

Beth McCoy

Superintendent of Schools
