

Huntington Union Free School District

"A Tradition of Excellence since 1657"

James W. Polansky

Superintendent of Schools

May 16, 2017

Dear Huntington School District Residents:

On behalf of the Board of Education and administration, please accept my sincerest thanks for supporting the Huntington School District's 2017-2018 budget and capital propositions. Your support will allow us to continue addressing the needs of our students in a financially responsible manner and despite any federally and state-driven educational and fiscal challenges. Further, your endorsement of the capital propositions will permit us to make needed improvements and upgrades to buildings throughout the district in the years to come.

My gratitude extends to each of you who assumed an active role, asked questions or provided input during the budget development process. We will maintain our efforts toward achieving cost savings and efficiencies, while preserving the goal of providing students across the district with a high quality education that promotes an appreciation for learning and one that prepares them for their lives beyond Huntington in a 21st century global society.

As always, I strongly encourage district residents to contact me at any time during the year with questions or concerns, or simply to recognize a student or staff member accomplishment. Together, we will continue to foster an environment that contributes to the development of academically prepared and well-rounded students, promotes parental involvement, and encourages collaboration among all members of the school district community.

Thank you for your confidence in the Huntington School District and for embracing our children and their futures.

Sincerely,

James W. Polansky
Superintendent of Schools
