The therapeutic value of Tai Chi has been acknowledged in China for thousands of years and Tai Chi is the most popular health exercise in China today. The movements enable the body to relax and let gravity melt away tension blocks. It is one of the safest exercise methods known. The way we live determines the amount of tension and nervousness we accumulate in our bodies. Most of us live in an unhealthy environment in which there is too little exercise, poor eating habits, and conditions that create emotional tension.
