Meet the Reading Teacher Night
Response to Intervention for Parents and Community

There is great power in harmony and mutual understanding.
What can I expect?

- Information and involvement in planning and providing interventions to help your child
- Help for your child that increases or decreases depending on your child’s needs
- Information about how your child is responding to the interventions being provided

Developed 10/20/2012 - HUFSD (Adapted from FDOE)
What is RtI?

RTI stands for Response to Interventions (RtI) and refers to a set of ideas focused on how to help all children be successful in school.
What are the goals of RtI?

- For the school to provide effective teaching that fits the needs of each student.
- For the school to make sure the classroom environment is the best possible for every student.
- To help all students meet grade level standards.
- To "add to" general education instruction, not "replace" with something different.
- To provide interventions ("help") as a natural, ongoing part of education that doesn’t wait until the student is struggling.
RtI is a framework for providing high-quality instruction built on these components:

- **All students receive high-quality core content area instruction.**
- All students are screened to identify those who are making adequate grade-level progress and those who are falling behind and at risk for learning difficulties.
- **At-risk students are provided with immediate, research-based intervention instruction.**
- At-risk students’ progress is monitored frequently to ensure the intervention is meeting their needs.
- **Professional development is provided to educators to enhance the instruction and intervention they provide.**
What are the 3 Tiers of RtI?

- Tier 1 – High quality teaching and behavior support for all students in the school
- Tier 2 – Additional interventions for students who need more help on specific skills
- Tier 3 – Interventions designed to address the unique needs of an individual student
Academic Multi-Tier Model

Tier 3
- Intensive Level
- Students who do not respond to interventions at Tiers 1 or 2 provided with more intensive interventions and progress monitoring

Tier 2
- Strategic Level
- Students who do not respond adequately to core curriculum, considered “at-risk” for academic failure
- Supplemental instruction provided

Tier 1
- Benchmark Level
- All students receive instruction in an effective, scientifically-based core curriculum
- Data on student progress is collected for all students at three “benchmark” periods during the year (Fall, Winter, Spring)

5% of students

15% of students

80% of students in a school who typically respond to a good core curriculum

SPECIAL EDUCATION ELIGIBILITY DETERMINATION

RTI
Parent Role in RTI
Get involved, ask key questions

- Is my child successful? How do I know? If not, why and what can we do differently?
- If needed, how is additional help going to be provided? By whom? How often? For how long?
- What can I do to help with the interventions for my child?
- How will I know if interventions are working?

Developed 10/20/2012 - HUFSD (Adapted from FDOE)
What do I do if I believe my child is struggling?

- Talk with your child’s teacher
- Ask for regular progress reports in the areas of difficulty
- Celebrate when progress is made; ask questions when there is little or no progress
- Make a list of specific questions to ask about your child’s progress.
Does RtI have anything to do with Special Education?

- Every student in the school, from Kindergarten to graduation, is involved in RtI.
- Interventions are provided through general education resources so that all students can be successful.
- For students who need ongoing intensive or individualized help to maintain progress, special education resources may be accessed by the school.
Does RtI have anything to do with Special Education (cont’d)?

- Information gained through on-going problem-solving about what your child needs helps the school make a decision about your child’s need for special education resources.

- The problem-solving process and RtI continues even if your child receives help through special education resources.
