

2009/2010 Huntington Foundation Star Grant Application

Star Grant Information:

The purpose of the **Star Grant** is to fuel grade-wide, department-wide and school-wide initiatives that have a broad impact or grand vision of education. Star Grants usually exceed \$1,000 and have been as high as \$11,000.

Examples of past year's grants that provided innovative additions to the curriculum are:

- **Equipment for the renovation of the Weight Room.**
- **Printmaking technology that enhances student's (at Huntington High School) creative explorations and personal expression through the print medium.**
- **Robotics Program at Woodhull Intermediate.**
- **Introduction to Engineering Program at Jack Abrams Intermediate.**

Star Grant applications invite teachers and administrators to apply for funds for initiatives that impact a grade, department or school. An applicant who wishes to obtain funding for a project should complete this grant application describing the idea and its benefits and after gaining approval from the school principal, send it to **Huntington Foundation (HFEE)**, P.O. Box 552, Huntington, NY 11743. **The deadline for Star Grants is January 8, 2010.**

*Please remember that it is the goal of HFEE to fund **new** and **innovative** ideas. This year, our limited financial resources will limit, if not prevent, HFEE funding of any smart boards.*
